OVERVIEW

The orange square in our logo represents our spark of innovation and imagination that we bring to all we do. It drives us as an employee-owned infrastructure solutions firm. HNTB values a variety of perspectives that stem from a diverse workforce and reflect our communities where we live and work. The more diverse a team is, the more innovative and creative its solutions will be. HNTB has a tradition of engineering and architecture excellence, which has been and is greatly aided by the inclusion of individuals of different cultures, backgrounds and beliefs.

HNTB’s commitment to diversity and inclusion includes both continuous improvement internally, as well as supporting the growth and success of the small business consulting community. Through HNTB programs, our focus is on building lasting relationships that support the continuous development of minority and small businesses as partners.
