OVERVIEW

The College of Engineering is excited to offer students the opportunity to participate as undergraduate teaching assistants for the fall 2018 semester for the course EGG 101 - Introduction to Engineering First Year Seminar being taught by Dr. Pushkin Kachroo of the Electrical & Computer Engineering department and coordinated by Jennifer Kennedy - Director of Student Achievement for the College of Engineering.

The college is looking to fill up to 20 positions for this program to be paid at an hourly rate of approximately $15/hr.

Roles and Responsibilities

Job responsibilities will include:

- Monitoring and assisting with hands-on activities with 3-5 groups of freshmen (each group would be 3-4 students);
- Facilitating conversations with freshmen about the challenges and benefits of pursuing a degree within the College of Engineering;
- Participating in panel discussions about the importance of math within the fields of engineering, construction management and computer science;
- Other duties to be determined

As not all students within the college are eligible to be employed at UNLV, the College will be offering a limited number of scholarships for those students who are interested in a position as a teaching assistant. Specifics will be communicated to those students who apply, but concern about work eligibility should not prevent any student from applying!
Education and Qualifications
Teaching Assistant Eligibility Criteria:
- Minimum of a 2.5 gpa;
- Enrolled in a minimum of 6 credits for the fall semester;
- Have completed a minimum of MATH 182 prior to the start of the fall semester (with a grade of B or better in MATH 181 and 182).
- Have completed one 200+ level course from your discipline prior to the start of the fall semester with a grade of B or better
- Available to work during one of the class times for EGG 101
- Friday from 8:30am-12:15pm and/or Friday from 12:30-4:15.

**Students do not have to work both the morning section of the class and the afternoon, but may be able to if interested.**

Preferred Skills
Preferred Criteria:
- Able to program in any programming language;
- Enthusiastic about working with incoming freshmen to the College of Engineering
- Enjoy hands-on lab activities
