WEB CONTENT DEVELOPER

Posting ID: IN1812657E

Company: Terbine

Company Website: http://www.terbine.com/

Work Location: Remotely or Terbine office in Las Vegas, NV

Salary: Based on qualifications and experience

Position Type: Full-Time

College Major(s): Electrical/Computer Engineering (EE/CpE), Computer Science (CS)

College Level(s): Undergraduate-Freshman, Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior, Graduate Student, PhD. Student

OVERVIEW

Terbine is the first large-scale commercial-grade system designed to curate IoT data (such as carbon emissions, vehicle sensor outputs, power line loading and traffic monitoring) from many, many sources; consider the provenance of those sources, and couple it with metadata and multiple indices to allow efficient searching by machine processes and humans. Visit www.terbine.com/video.html for a quick overview.

Roles and Responsibilities
Terbine is looking for a Web Content Developer to join its web development team based in Las Vegas, NV. The ideal candidate will be highly motivated with a desire to learn and be comfortable working in a fast-paced environment. This is an entry-level position.

Responsibilities Include:
- Create, update, and maintain web content for use on company websites.
- Demonstrate proficient understanding of social media platforms.
- Develop and edit videos to increase web traffic.
- Research and draw insights from target demographics.
- Utilize front-end development tools such as: HTML, CSS, and JavaScript.
- Keep up to date with industry trends and shifts in technology.
- Other duties as assigned.

Education and Qualifications
Computer science fundamentals are essential, and background in the physical sciences helps.

Marian Mason | Internship & Career Services Coordinator | coecareer@unlv.edu | https://unlv.edu/engineering/jobs
