Company: Vegas Website Designs

Work Location: Town Square, Las Vegas

Position Type: Full-Time

Salary: $50k-$60k/yr DOE

College Major(s): Computer Science (CS)

College Level(s): Undergraduate-Junior, Undergraduate-Senior, Graduate Student

OVERVIEW

Vegas Website Designs is a fast growing web design agency that operates on passion, integrity and highest quality. We embrace diversity and love solving complex, big business challenges for our clients.

The role of Web Developer will be our team's second programmer with ability to advance in the agency.

Roles and Responsibilities

As a Web Developer, you may work on many projects at one time from large state projects to e-commerce, so switching between tasks in a fast-paced environment is important.

We are looking for a passionate web developer who can pull from their own creativity to bring PSD mockups to life with animation and amazing user experience. But you can’t be just a great developer, you have to understand the web, usability, conversion, SEO, business objectives and how to use development to drive the goals of your client. Our design agency is about producing the best work possible, so we all work together and are very honest about our thoughts. The developer needs to realize that creating solutions to achieve goals is more important than personal interest or style.

- Creation of custom mobile responsive websites from a PSD Design
- Setup and configuration of WordPress & plugins
- Input website content; website and software updates
- Continually learn about usability, web trends and techniques to ensure Vegas Website Designs produces great, modern solutions
- Coding email and newsletter templates

Marian Mason | Internship & Career Services Coordinator | coecareer@unlv.edu | https://unlv.edu/engineering/jobs

UNLV, Howard R. Hughes College of Engineering
