ENGINEERING INTERN

Posting ID: IN1851453B

Company: Ahern Rental, Inc.

Position Type: Full-Time

College Major(s): Mechanical Engineering (ME)

Company Website: http://www.ahern.com/

Work Location: Henderson, NV

Salary: $16.00

College Level(s): Undergraduate-Junior, Undergraduate-Senior

OVERVIEW

Are you a 3rd or 4th year Engineering Student w/SolidWorks experience? We (a well-established OEM equipment manufacturer, based in Henderson, NV) have a couple of open positions for Mechanical Engineering summer internships.

These are paid, Hands-On positions for the summer to assist the current engineering team with design, Bill of Material (BOM) audits, product development, and general engineering activities and assistance.

Interested? Come work for us this summer!

Roles and Responsibilities

- Assist in the Design of mechanical, hydraulic, structural, power-train and electrical systems for lift equipment
- Help audit Bills of Materials (BOMs) in order to reflect current design, costs, and manufacturing practices
- Work directly with the Engineering team on various projects/programs as assigned
- Work with the supply base to assist in engineering specifications and requirements
- Work directly with SolidWorks CAD software for drawing and document modification and/or s/control
- Misc. duties and tasks as programs/projects dictate

Education and Qualifications

- 3rd or 4th year education in Mechanical Engineering or Engineering Technology
- Knowledge of SolidWorks 2D and 3D CAD modeling is strongly preferred
- Must have the desire to work with a technical team
- Strong mechanical aptitude a plus and the interest in heavy equipment use and service
- Must be able to read, write, and speak English
- Must be able to pass drug test and background check
- Must be able to provide Motor Vehicle Record at time of job offer (current within 15 days)
