ENGINEERING PLANNING - INTERN

Posting ID: IN1920445B

Company: City of Las Vegas

Position Type: Part-Time

College Major(s): Civil Engineering (CEE)

Company Website: http://www.lasvegasnevada.gov

Work Location: 333 N Rancho Dr - 7th Floor, Las Vegas, NV 89106

Salary: Approximately $15 to $17 hourly

College Level(s): Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior

OVERVIEW

The City of Las Vegas Public Works Department is 'Building Our Community' by providing sustainable and cost effective infrastructure planning, design, and construction management; wastewater and stormwater management; and traffic control services to Las Vegas residents, businesses and visitors so they can enjoy a safe, healthy, and livable community.

Roles and Responsibilities
As part of the Engineering Planning Section, the successful candidate will be working with a dynamic and forward-thinking group of professionals dedicated to planning and funding new flood control and sanitary sewer facilities for the future while, at the same time, assessing, rehabilitating and rebuiling aging collection, detention, and conveyance infrastructure. This same section also reviews and coordinates private land development projects and helps ensure general environmental compliance and education throughout the City’s various departments, private contractors, businesses, and the general public. In addition, as part of the larger Las Vegas’s City Engineer Division, the candidate will have involvement in the final design and construction management of various City capital improvement projects including sewer, flood control, roadway, bridge, buildings, and combined projects. These would include major corridor improvement projects where the City is a nationally recognized leader (especially in the Downtown, Arts District, Symphony Park and Medical District areas) with its commitment to “complete streets” concepts, art and aesthetics; accessibility, “smart-city” technology, and multi-modal capability.

Education and Qualifications
Full time (12 hours/semester minimum) undergraduate student, majoring in Civil Engineering. Sophomore to Senior Status. Possess a minimum GPA of 2.5. Hard working and career oriented. AutoCAD and/or GIS experience is a plus.

Preferred Skills
Professionalism – Demonstrates core values by being honest, respectful, and positive.
Effective Communication – Expresses verbal and written thought in a clear and understandable manner.
Customer Focus – Demonstrates genuine concern and satisfies external and/or internal customers based on the CLV core purpose and values.
Adaptability – Able to effectively modify behavior to suit changing workforce demands.
Problem Solving – Solves problems by considering all causes, solutions, and outcomes.
Productive Partnerships – Develops, maintains and strengthens partnerships with others.
Technical and Safety Expertise – Possesses a depth of knowledge, skill, and ability in a technical (job) area.
