OVERVIEW

Clark County is a dynamic and innovative organization dedicated to providing top-quality service with integrity, respect and accountability. With jurisdiction over the world-famous Las Vegas Strip and covering an area the size of New Jersey, Clark is the nation’s 14th-largest county and provides extensive regional services to more than 2.25 million citizens and more than 46 million visitors a year. The Department of Public Works delivers a wide range of services to the community including the design, construction, inspection and maintenance of essential public infrastructure such as roadways, bridges, traffic control devices, flood control facilities and trails, for the safety and use of the public.

Roles and Responsibilities
This position performs technical office and field work and may have specific program responsibility in support of County engineering and construction-related activities; performs specified engineering design work under the direction of a professional engineer.

Education and Qualifications
Equivalent to two (2) years of college or training in engineering, drafting, construction, survey or related technical training, AND three (3) years of full-time experience in providing technical support, including skilled computer applications and design work, to an engineering function.

Preferred Skills
Materials testing; OR Autodesk/AutoCAD
