OVERVIEW

Owned Outcomes (O2) is a software company focused on delivering actionable insights to healthcare constituents like providers and payers to deliver better care at lower cost.

We are seeking for the best and the brightest front-end web developer who can work full-time onsite with us in Vegas office. If you have passion and expertise in Angular and JS-based web development, are eager to learn the current cutting-edge approaches to web development, like good challenges and enjoy solving complex problems creatively, then this is the company and the opportunity for you! Come to join a diverse company of talented, smart and passionate people.

Roles and Responsibilities

- Develop user interface for client-facing web-based applications which can interface with in-house proprietary systems using CSS3, SCSS/SASS, HTML5, Angular, Git, etc.
- Design, develop, monitor, maintain and optimize systems
- Solving the complex software engineering problems and collaborating with the development teams
- Review code, maintain code quality through testing and perform bug fixing
- Setup, configure, manage and perform all phases of web application development and deployment
- Stay on schedule and produce results in a timely manner

Education and Qualifications

- 3+ year software web development
- Hands-on experience in Angular 5/6 and SCSS/SASS are required
- Strong knowledge of web technologies like HTML5, CSS3 and JavaScript-based web technologies
- Experience in creating RESTful services and API endpoints
- Positive attitude and ability to learn quickly in a fast-paced and task-focused team environment
- US citizens and green card holders only
Preferred Skills

- Working knowledge of GraphQL
- Work experience in web development such as CSS3, HTML5, RWD, RxJS, GIT, D3.js and TypeScript strongly preferred
- Knowledge of any other JS frameworks such as React, Node JS, unit testing, testing tools such as Karma, Mocha, etc.
- A Bachelor’s degree in computer science, information technology or related field
