Team Fishel has an exciting opportunity for a Construction Management Intern with our Las Vegas, NV office. This is a great way to apply your academic learning in a utility construction setting with the Best Choice in the business.

Ken Fishel founded The Fishel Company in 1936. He was committed to providing the Customer a high quality job at a fair price and Ken's values have been passed down 3 generations for 81 years. Today, Team Fishel has 2,100+ Teammates working out of 35 offices across 12 states committed to providing our Customers with on-time best value solutions to meet their project needs and timelines.

Roles and Responsibilities
As a Construction Management intern, you will assist with multiple utility construction projects and customers. You will also provide inspection or audit work to monitor field activities, participate in estimating, as well as organize information for use in drawings or report submittals. Several weeks will be spent in the field in a laborer role in order to learn the nature of the work.

Education and Qualifications
To be considered for the internship, you will need to be a rising sophomore, junior, or senior in an accredited college/university Construction Management or comparable program. This role requires that you be physically able to work outside in a variety of weather conditions in a fast paced environment. You must be at least 19 years of age with a valid driver’s license at the start of the internship, which is anticipated to be late May - early June 2019.

How to Apply
