Books and General Guidance on CBPR

Highly-Cited Research

Selected Research by Panelists

UNLV Libraries and CBPR

The Libraries are your partners in research and instruction, and librarians are ready to collaborate with instructors to design and deliver instruction for students on a wide range of concepts, skills, and topics. We can help by developing a customized online research guide for a course or assignment that integrates CBPR or by providing library instruction on how to find and effectively use information. Please contact a librarian to find out how they can help! http://guides.library.unlv.edu/appointments
