OVERVIEW

The FBI is looking for an Electronics Technician.

This opportunity is for all their field offices nationwide. Please ensure your top three (3) location preferences are updated under the "Federal Preferences" tab in your application prior to submission. If there is only one office you are interested in then you should mark that location for all 3 of your choices. You will only be considered for those location preferences you've selected. Your application will only be reviewed if vacancies exist among your three choices. Due to the fluidity of vacancies, there is no guarantee which office will have openings within the time frame of this posting. Your application will remain in a "Screen - Eligible" or "Applied" status, and you will only be contacted if your application is forwarded to the hiring manager.

Working Hours: 8:15 a.m. - 5:00 p.m. (subject to change)

Roles and Responsibilities

Major Duties -

GS 7:

- Performs installations and preventive and corrective (or emergency) maintenance and service work on FM radio systems, data networks, and electronic physical security systems.
- Inspects equipment for adherence to standards and tolerances.
- Installs and maintains two-way FM and associated equipment in automobiles.
- Installs and maintains active and passive circuits relating to intrusion detection systems.
- Assists higher grade technician(s) in installing or replacing portions of systems and in performing more difficult maintenance work.
- Continuously reviews pertinent technical manuals to remain current with technology.
- Attends government-sponsored training classes.
GS 9: In addition to the GS 7,
- Uses test equipment and advanced techniques to perform installation, maintenance and repair tasks, and operational testing of FM radio systems.
- Performs corrective maintenance to restore a system which is out of operating condition; conducting extensive analytical testing and taking positive action to replace or repair deficient or malfunctioning components and units.

Education and Qualifications

Qualifications and Evaluations:
Please make sure your specialized experience/requirement(s) can be identified in your resume. Applicants must meet the qualification requirements by the closing date of this announcement.

Your application will be evaluated and rated under the FBI's Candidate Rating Procedures. Your resume and supporting documentation will be used to determine whether you meet the job qualifications listed in this announcement and will be compared to your responses to the online assessment questionnaire. High self-assessment in the vacancy questions that is not supported by information in your resume, and/or supporting documentation may eliminate you from Most Competitive status.

Your application will then be placed in one of three categories: Most Competitive, Competitive, or Least Competitive. Names of candidates in the Most Competitive category will be sent to the hiring official for employment consideration. Veterans' preference will be applied.

If you are deemed Most Competitive, you will be referred to the selecting official for further consideration.

All applicants will be rated on the following Competencies:
- Electronics
- Communication
- Initiative
- Flexibility/Adaptability
- Organizing and Planning
- Problem Solving/Judgement

Specialized Experience (SE)

GS-7: Applicants must have one (1) year of SE equivalent to the GS-5 grade level. SE is:
- Assisted with the physical installation and maintenance of electronic communication systems.
- Conducted routine equipment tests; performing basic corrections and/or replacing defective parts.
- Handled, stored, and inventoried a variety of electronic equipment and components.

GS-9: Applicant must have one (1) year of SE equivalent to the GS-7 grade level. SE is:
- Performed physical installation, maintenance, and troubleshooting of electronic communication systems.
- Performed installations and preventive and corrective (or emergency) maintenance and
service work on FM radio systems, data networks, or electronic physical security systems.

- Inspected equipment for adherence to standards and tolerances.

Note: In your resume, please describe in detail how you meet the SE. You may have acquired the SE through technical school training, in a military occupation and/or employment.

**Education**

Education may be substituted for SE as follows:

GS-7: Applicant must have a bachelor's degree with superior academic achievement or one (1) full year of graduate level education. Superior academic achievement is the completion of all the requirements of a bachelor's degree from an accredited college or university, which is based on (1) class standing, (2) grade-point average of 3.0 or higher as recorded on an official transcript, or as based on courses completed during the final two years of the curriculum, or (3) honor society membership.

GS-9: Applicant must have a master's or equivalent graduate degree or 2 full years of progressively higher level graduate education leading to such a degree or LL.B. or J.D., if related.

NOTE: Qualifying education must show major study was in Electrical Engineering, Electronics Engineering, Electronics Technology, or other fields related to the position.

All degrees must be from an accredited college or university.

Education completed in foreign colleges or universities may be used to meet the above requirements provided you can show that the foreign education is comparable to that received in an accredited educational institution in the United States.

**Key Requirements**

- Must use Mozilla Firefox when applying to any fbijobs.gov Job Openings
  *Must be a United States citizen.
- Must be able to obtain an SCI clearance
- Selectee will be required to complete form FD-887, Request for Access to Sensitive Compartmented Information (SCI).
- Must be able to pass a Fit for Duty physical exam.
- Must have (or be able to obtain) a valid driver's license.
- Some travel will be required.

**Physical Demands**

Work requires strenuous physical exertion such as climbing tall ladders or towers, long periods of standing, recurring bending, crouching, stooping, stretching, reaching or similar activities; and recurring lifting heavy objects in excess of 50 pounds such as radio and related communications systems.
