OVERVIEW

Goodnature manufactures juice processing equipment since 1975 – hydraulic juice and cider presses, pasteurizers, and auxiliary equipment.

Roles and Responsibilities

- Updating website pages (small fixes, like editing forms and looking into broken links, 404 errors, missing files, etc.)
- Editing HTML email templates
- Updating and sending out marketing emails
- Editing business cards templates in Adobe illustrator when we need to print new cards
- Configuring applications (salesforce CRM, google apps for business, dropbox, etc.)
- Making quick edits on brochures and other documents
- Helping employees install and configure apps
- Other misc. tasks

Qualifications and Education Requirements

- HTML
- CSS
- Javascript
- Adobe suite (illustrator, photoshop, indesign knowledge preferred)
- PHP / wordpress preferred
- Generally skilled and knowledgeable in using computers (MAC OSX) and figuring things out on their own if they don't know how to do it.

Work would range from 2 hours - 10 hours per week. Most of it can be done remotely, but employee would need to come into the office once in a while for things like installing apps on other employees computers. Office is located New warm springs and Rainbow, just off the 215.

Where To Apply

Charlie Wettlaufer, VP Sales & Marketing: charlesw@goodnature.com
