The Get that Grant Program facilitates holistic grants training. This comprehensive program is open to all UNLV early and mid-career faculty and graduate students.

### About the Program

Launched in Spring 2019, the Get That Grant (GTG) Program is designed to:

- build granting competencies and confidence for UNLV’s non-STEM faculty and graduate students;
- foster interdisciplinary collaborations;
- enhance access to a wide-range of funding; and
- facilitate connections to UNLV granting services.

The GTG Program provides faculty and graduate students with access to sequenced training modules/workshops, writing communities, funding review panel training, senior granter mentorship, and tailored college programming.
