

## UNLV Radiography Program Clinical Obligations

Clinical education is a vital component in the training of a Technologist. The UNLV Radiography Program affiliates with acute care hospitals and outpatient imaging centers to provide a robust clinical education. UNLV faculty will assign students to clinical sites that provide a wide range of procedures. Clinical placement is solely determined by the Program and it is the student's responsibility to procure transportation to and from their clinical assignments.

The following is a list of the current clinical affiliates for the UNLV Radiography Program
