**Design Intern, Electrosonic Inc.**

**Posting ID:** PD-HC-09032019-a

**Employer Name:** Electrosonic Inc.

**Employer Website** [www.electrosonic.com](https://www.electrosonic.com)

**Internship Job Title:** Design Intern

**Internship Location:** 187 E. Warm Springs Rd., Las Vegas, NV 89119

**Salary:** $15 an hour (Not for Credit)

**Required Hours:** 10-20 hours per week

**Seeking Majors in:** Entertainment Engineering, Theater, Music, Electrical Engineering, Construction Management, Graphic Design, Journalism, Communications and other related fields

**Class Standing:** Sophomores, Juniors, and Seniors

**OVERVIEW**

Are you a passionate, dedicated game changer who is ready to learn from top industry experts? Electrosonic is looking for a Design Intern to work directly with Senior Design Consultants in our Las Vegas office.

Electrosonic is an international audiovisual and technology services company that designs, builds, and supports innovative solutions creating lasting experiences where people live, work and play.

Through this opportunity you will be exposed to three different disciplines in tech design: Audio Visual & Controls, Information and Communications Technology (ICT), and Security Surveillance. You will gain hands on experience working on real projects in markets such as themed entertainment, gaming and hospitality.

**INTERNSHIP ROLES AND RESPONSIBILITIES**

- Assist Design Consulting team with the creation of concept, schematic, design development and bid level system drawings
- Perform, as needed, product research to provide technology evaluations, recommendations and costs
- Participate in design, brainstorming, estimating meetings as needed
- Assist in the generation of system specifications, facility impact reports, system budgets and bid documents
- Assist with planning and setup of mock-ups & technology demonstrations
- Perform other activities and responsibilities as directed by the immediate manager
- Follow Electrosonic health and safety policies and procedures
- Training will be provided
REQUIRED SKILLS AND EDUCATION

- Excellent verbal and written communication skills
- Detail oriented with strong organizational skills
- Ability to interface well with clients and co-workers
- Capability to manage and work with Design Consultants to prioritize multiple simultaneous activities
- Proficient with computers and standard office programs (e.g. Windows, Excel, Word)
- Experience with computerized design programs including AutoCAD and Sketchup a plus
- Knowledge of entertainment engineering and/or control systems programming a plus
- Knowledge of current products and trends in audio, video, show control, etc. a plus
- Honors College student at UNLV
