ENGINEERING INTERN

Posting ID:  
Company: Clark County Water Reclamation  
Company Website:  
Position Type: Internship  
Work Location: Clark County, NV  
Salary:  
College Major(s): Construction Management, Civil & Environmental Engineering, Electrical Engineering  
College Level(s): Any

OVERVIEW

The Clark County Water Reclamation District is recruiting candidates for internships within the Engineering Department. The District owns, operates and maintains seven treatment facilities in Clark County, which collectively process over 100 million gallons of wastewater per day. We are hiring two students to assist staff with the management of the Capital Improvement Plan consisting of 118 projects worth over $785 million.

Qualifications: Current study in Civil, Electrical, Environmental Engineering, Construction Management, or closely related field of study.

Helpful Knowledge, Skills and Abilities: General knowledge of engineering and/or project management principles. Good communication skills, verbal and written; along with the ability to balance a workload and meet deadlines. Familiarity with Microsoft Outlook, Word, Excel, and PowerPoint are desired.

Expectations: This position will require 15-20 hours of work per week during the semesters. Pay will vary from $14 - $16/hour depending on qualifications and academic standing. Interns will be expected to inspect active construction sites.

To apply: Submit a cover letter and resume to employment@cleanwaterteam.com by March 17, 2017. Please include Fall/Spring Internship in the subject line.
