ENGINEERING SUMMER INTERN

Posting ID: IN1720351F

Company: San Diego Gas & Electric

Position Type: Full -Time Summer

College Major(s): Electrical/Computer Engineering (EE/CpE)

Company Website: http://www.sdge.com

Work Location: San Diego

Salary: Will be discussed if offered position

College Level(s): Undergraduate-Junior

OVERVIEW

SDG&E is a regulated public utility that provides safe and reliable energy service to 3.4 million consumers through 1.4 million electric meters and more than 850,000 natural gas meters in San Diego and southern Orange counties. The utility’s area spans 4,100 square miles. SDG&E® is a subsidiary of Sempra Energy (NYSE: SRE), a Fortune 500 energy services holding company based in San Diego.

Roles and Responsibilities
Prepares or assists in the preparation of engineering designs, specifications, standards, studies and cost estimates in support of projects and tasks managed by others. Applies technical knowledge and skills toward the resolution of problems and the development of sound technical recommendations. Tasks may include, evaluation of new and existing products or systems, need for designs or specifications, and development of test apparatus or procedures. Engineering Interns work under the direction of our Associate Engineers. Your willingness to learn from others and a can-do-attitude will make your experience with SDG&E personally and professionally rewarding.

Education and Qualifications
Junior EE major preferably with an interest in Power Engineering

Preferred Skills
Strong candidates for this position generally require:
- Strong oral and written communication skills
- Strong interpersonal skills
- Good computer skills
- Strong analytical skills
- Relevant coursework
- Leadership activity
- Extracurricular and/or community involvement
- GPA of 3.0 or above
- Must be able to work independently with minimal supervision
- Must be a US Citizen or Permanent Resident Alien
