ENGINEERING INTERNSHIP-LAS VEGAS

Posting ID: IN17102577
Company: Southwest Gas Corporation
Position Type: Full-Time
College Major(s): Civil Engineering (CEE), Construction Management (CEM), Mechanical Engineering (ME), Electrical/Computer Engineering (EE/CpE), Computer Science (CS)

Company Website:
Work Location: Las Vegas
Salary: $18/hr
College Level(s): Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior

OVERVIEW
This is a Summer Engineering Internship program for our Las Vegas, Southern Nevada operations and corporate engineering functions. We are looking for smart, enthusiastic and self-motivated engineering students that have good communication skills, critical thinking skills, are well organized, are detail-oriented and can work independently in a fast-paced environment.

Roles and Responsibilities
The summer internship program is designed to provide a foundation of technical knowledge and professional experience while giving students the opportunity to learn the business of distributing natural gas. To foster professional growth and development the intern is expected to participate in weekly Lunch and Learns, field trips, and individual and group projects. All interns will provide a summary presentation of lessons learned to Company management at the end of the program. Interns are expected to fulfill a 12 week commitment. This position is 5 days a week for a total of 40 hours a week.

Interns can expect to gain the following from this Internship:
Business communication skills verbal and written
Project management skills
Engineering evaluation and analysis
Professional environment experience

Education and Qualifications
Intern candidate must be an actively enrolled student at an accredited college and/or university. Candidates must be in at least their sophomore year and must be majoring in fields related to the Company.
Commit to interning for a minimum of ten (10) weeks and a 40-hour work week for the summer program.

UNLV, Howard R. Hughes College of Engineering
Internship positions are filled through our staffing partner; Interns are not direct employees of Southwest Gas.
Additionally, candidates must meet the following criteria:
Cumulative GPA greater than or equal to 3.0
Most recent semester/quarter GPA greater than or equal to 3.0
Unofficial transcript submittal is required

In addition to the minimum qualifications, our Engineering Intern Candidate must meet the following:
Currently enrolled in an engineering degree program
Effective interpersonal skills
Ability to learn technical knowledge quickly
Self-motivated
Effective written and verbal communication skills
Effective time management
Exhibits leadership qualities
Interested in Las Vegas residency

Preferred Skills
Leadership and critical thinking skills
