Job Title: Intern

Work Location: Las Vegas

Position Type: PT, but working toward 30 hrs/wk and full-time eventually

Salary: DOE, tuition reimbursement

College Major(s): CEM

College Level(s): Junior, Senior, Grad

OVERVIEW

Shortly after Jack Martin founded John A. Martin & Associates in Los Angeles in 1953, he began work on the firm's first large project – The [Fremont Hotel and Casino](#) in Las Vegas. Since that start, John A. Martin & Associates and its affiliated offices have grown to one of the largest and most highly respected structural engineering firms in the country. The corporation's network includes 9 offices throughout the United States and the [portfolio](#) of work reflects its significant contribution to the nation's built environment, completing structural and civil designs for an annual average of 60 million square feet of new construction worldwide; as well as the firm's well deserved reputation for providing the highest quality structural and civil engineering services.

Roles and Responsibilities

The intern will work with different engineers on a variety of projects 20 hours a week, depending on students' course load. The goal is to work toward full-time employment giving the student tuition reimbursement.

Qualifications and Education Requirements

Must have completed first two years of college.

Preferred Skills

Federal work study students encouraged to apply.
