Applicants must register online at www.dnddigital.com, pay the $55.00 computer matching fee by credit card, and enter their Contact Information and Dietetic Internship priority choices. Applicants should only prioritize Dietetic Internships for whom they have submitted all completed application materials prior to the Internship deadline.

Deadline for online matching registration for computer matching is 11:59 pm CST, Friday, February 15, 2019. Computer matching is a process that requires prospective interns to rank in order of preference their desired internship programs. On Notification Day (Sunday April 7 at 6:00 pm CDT), applicants will find their matching result on www.dnddigital.com through Monday, April 8, 2019 (Appointment Day). This is the ONLY source of notification for applicants. Each applicant will receive either ONE MATCH or NO MATCH after log in. All applicants who receive ONE MATCH will find the matched DI Program name and contact information to accept the appointment. The MATCHED DI Program is planning that the MATCH will be accepted. Matched applicants must contact the DI program on Notification or Appointment Day to confirm the acceptance of the MATCH. No arrangements should be made with any other DI programs. Applicants who received NO MATCH will be given other instructions.
Selection of Applicants
Applications are reviewed by UNLV Nutrition Sciences faculty, one of which is the DPND Director and Community Preceptor. We examine GPA (science, DPND, and overall), work and volunteer experience, and letters of recommendation. Applicants are compared to others in the pool, so it is different each round. We often have had many high quality applicants, who excel in all three areas. The best thing to do is to make sure those areas are strong. We cannot disclose the information in your letters, so you must judge the quality of your letters by talking to the person you selected to write for you. Unfortunately, if your GPA is not stellar, then the only way to correct that is to re-take classes and we realize this is not an easy or inexpensive endeavor. Gaining experience is always an option and through that experience, it may be possible to gain strong letters.

Successful candidates are strong in all three areas and demonstrate exceptional skills through projects or experience. These individuals clearly demonstrate their skills, relate it to the internship, and are perfectly polished in the interview process.

If selected for an interview, applications are forwarded to our Hospital Preceptors. The interview is a panel with the DI Director, DPND Director/Community Preceptor and preceptors from our hospitals. Interviews can be done in person or via Skype and are 15-20 minutes in length.
