Reviews*

“The features are well thought out and executed like the self storage pockets sewn into the fly for the guy lines and two pockets inside the tent for small stuff.”

“The poles are more reinforced than any other tent I've owned. The tent fabric is thick and tear resistant. Unlike so many other tents, it just feels solid. Regarding waterproofness, we were caught in an all night downpour and not a drop got inside the tent.”

“This tent is exactly what it claims. Strong, durable, and built to last.”
