

LENGTH OF SERVICE RECOGNITION

Archive

The Faculty Length of Service Recognition Program recognizes the ten-, twenty-, thirty-, forty-, and forty-plus years of service milestones of UNLV's dedicated academic and administrative faculty members. This archive serves as a record of the honorees from the program's first year (2017) and is updated annually.

Those attaining the ten-year milestone receive a commemorative pin to mark the important occasion, while long-serving faculty who complete twenty, thirty, forty, and fifty years of service receive a medallion to be worn at commencement ceremonies and similar events. Beginning in 2019, those serving 41 years and higher receive a certificate to mark their service milestone.

The records presented below are categorized by the year the faculty member was honored and include the faculty member's name, as well as the unit they were in when their recognition occurred. Years of service are calculated based on full-time service of academic and administrative faculty. Time spent in a part-time capacity (i.e., part-time instructor, adjunct faculty, and other part-time work) is not included in the calculation.

2017 Length of Service Recognition

In the first year of the Length of Service Recognition program, honors were given for 10, 20, 30, and 40 years of service. Awards were honored for the decade milestone they were most close too, even when they may have served longer. For example, if a faculty member served 55 years in 2017, they were awarded the 50 year medal. Due to this catching-up of milestones, there were many more honorees in 2017 than in subsequent years.
