Paid Internship Opportunity

Information Technology Intern, Las Vegas Valley Water District

Posting ID: HC-041619-PD-c-IT

Employer Name: Las Vegas Valley Water District

Employer Website: www.lvwwd.com

Internship Job Title: Information Technology Intern

Internship Location: Valley View Campus or Molasky Corporate Center, depending on skill set and area of interest

Salary: $12 - $18 an hour (Not for Credit)

Required Hours: Up to 25 hours a week

Seeking Majors in: Computer Science, Computer Engineering, and/or Management Information Systems

Class Standing: Sophomores, Juniors, and Seniors

OVERVIEW

Reliable, quality water. Service. Sustainability. That's what the Las Vegas Valley Water District (LVVWD) has delivered to the desert community for more than 60 years. A not-for-profit water utility, LVVWD began providing water in 1954 to a service area of around 45,000 residents. In the more than 60 years since, change has been the only constant. In 2002, the district's service population surpassed 1 million people. The Water District has kept pace, building and responsibly maintaining the city's water delivery system and serving customers through periods of extraordinary growth and community development—using sustainable technologies such as solar power and alternative-fueled fleets to increase efficiencies and manage costs of water delivery in the desert. In 2017, the Water District was awarded first place in the Government Green Fleet Award rankings for its efforts to build a fleet of alternative-fueled vehicles and other environmental best practices.

INTERNSHIP ROLES AND RESPONSIBILITIES

LVVWD has an Information Technology Internship position available for the Summer and Fall 2019 semesters. The Information Technology Department supports the Las Vegas Valley Water District, Southern Nevada Water Authority and Springs Preserve. The Department has a wide range of disciplines and responsibilities. Traditional IT related rolls such as Application Development, Network Administration and Database Administration are complemented by disciplines such as Spatial Technologies and Information Governance. All teams work in a team oriented collaborative environment. Teams use the agile methodology for managing their projects and day to day work. Teams work in partnership with their customers to accomplish the goals of the organization. An Intern Position in any one of these groups will be brought into the team as a valued member of the team with a strong focus on learning and applying knowledge gained during their education to real world scenarios.

The specific roles and responsibilities will vary depending on what area of IT the position falls within. Responsibilities will be matched to level of education and previous course work. The focus will be on learning and applying skills through a team-based approach working directly with IT staff.
REQUIRED SKILLS AND EDUCATION

Knowledge of IT related techniques and concepts is a prerequisite.

HOW TO APPLY

All interested applicants should send their resume and cover letter to Lyndsi Majewski at lyndsi.majewski@lvvwd.com to be considered for the position. Please indicate “Honor's College Internship” in the subject line. The deadline for applying is Friday May 17, 2019.
