

MSR 25" Revo Snowshoes

General Description

These all-condition snowshoes offer excellent grip and a simple, durable design for trekking throughout all types of terrain. With glove-friendly, freeze-proof bindings, a large range of footwear can be securely fastened to the snowshoes. The traction provided by these snowshoes help save energy during hikes through snow and difficult terrain.

Features

- Advanced external traction
- Injection-molded plastic deck with torsional flex
- Glove-friendly, freeze-proof bindings
- Streamlined design for different types of terrain and energy-saving

Specifications

- Weight per pair: 3 lbs 14oz
- Width: 8 in
- Length: 25 in
- Gait: Unisex
- Load: 120-220lbs

Instructions for Use/Setting Up

Slide shoe into the center of the snowshoe, in the middle of the bindings on the snowshoe. Adjust the fit using the bindings, then secure the heel strap to ensure the snowshoe is completely attached.

Reviews*

“This was my first snow shoeing experience and these things are amazing!!! So light, I am able to jog in them when i want to! I am able to wear these with my normal waterproof running shoes because the straps are so adjustable, i love them!”

“As with all MSR snowshoes they have straps that are pretty easy to use with gloves on and the very best grip even on icy terrain with all those teeth.”

“I am 70, have had complete knee replacement of both knees in the past 5 years. I don't bend well and I have a heck of a time getting up when I fall down. Luckily with MSR Revolutions, I can get them on easily and their stability keeps me from falling.”
