Suppliers Quality Engineer

Posting ID: EM185284FA
Company: Medtronic
Position Type: Full-Time
College Major(s): Mechanical Engineering (ME)

Company Website: http://www.medtronic.com
Work Location: Irvine, CA
Salary: DOE
College Level(s): Graduate Student, Alumni

Overview

Medtronic is currently seeking a Supplier Quality Engineer.

For this role, we are seeking someone to ensure that suppliers deliver quality parts, materials, and services. Qualifies suppliers according to company standards and may administer a Certified Supplier Program in receiving inspection to ensure cost effectiveness. Monitors parts from acquisition through the manufacturing cycle and communicates and resolves supplier-related problems as they occur. Develops and prioritizes an auditing schedule to ensure that designated suppliers are audited on a regular basis to ensure good manufacturing practices (GMP) and quality standards are met. Evaluates suppliers’ internal functions to assess their overall performance and provides feedback in assessment of their operation.

Do meaningful work, make a difference, and improve lives — starting with your own.

The Restorative Therapies Group develops life-restoring therapies and healthcare solutions that span the care continuum; integrating technologies and applying clinical and economic evidence to increase patient access, improve efficiency of procedures and deliver successful patient outcomes.
