Rebel Student Homepage

As part of our commitment to providing better and more efficient student information services, the MyUNLV system has gotten a facelift! The upgraded system is mobile ready and highly responsive giving you easy, usable access to your student records from anywhere on any device. The following guide covers basic navigation of the Rebel Student Landing Page. For information on conducting business such as registering for classes, please visit the Student Resources section of the About MyUNLV webpage.

MyUNLV 9.2 Sign On Page

The MyUNLV 9.2 Sign On page has been simplified. You will log in using your current NSHE ID and password, there is no need to reset your password. However, it is very important you clear
your browser cache the first time you log in after the upgrade is completed. Find assistance clearing your cache in our Clear Browsing Cache blog or by searching your browser’s instructions for clearing cache.

The first time you log into MyUNLV after the 9.2 upgrade (estimated completion date 11/26/2018) you MUST clear your cache to ensure optimal system performance.

Rebel Student Home Page

As a student, you will land on the Rebel Student Homepage - your hub for all your student information-related business at UNLV. Not only does the page look simpler and cleaner, we made an effort to put valuable information front and center and streamline how you conduct business in the system.

An overview of your home page

This new landing page is an example of a PeopleSoft fluidized page, a modern, responsive user interface that makes it easy for you to work from a phone, tablet, laptop or desktop. Most of the work you will be conducting in the system will initiate on the Student Information Tiles.
Student Information Tiles

Below you will find a quick overview of what you can find under each tile. For more detailed instructions for conducting business in MyUNLV, visit the AboutMyUNLV Student Support page.
Admissions

If you are an active applicant (meaning you have an application submitted for an upcoming term), you will find:

- Your application status information
- Access to accept or decline your admission

If you applied in the past and transferred in credits at the time you applied, you will find:

- Your transfer credit report

Academic Progress (updated Fall 2019)

The MyUNLV team has rolled out an improved Academic Progress tile in the MyUNLV Rebel Student Homepage. If you are an undergraduate student, you can view your academic progress and what-if reports, learn about and apply for graduation, access Campus Comment to schedule appointments with advising, career services and more, and find advising center contact information. Otherwise, you will see information specific to you on how to access academic progress details.

Personal Information

The Personal Information Tile is where you can access your biodemographic information and update your:

- contact details,
- personal details,
- addresses,
- emergency contacts,
- ethnicity,
- privacy restrictions,
- 3rd Party FERPA releases

Enrollment

Your enrollment tile is where you can access everything you need to add, drop, swap and update course registration. Specifically, you will find your current class schedule, your final exam schedule, the class search, enroll, drop and swap, the planner, enroll by requirements, change to audit. Finally, you will find the searchable catalog and class schedule under this tile.

My Next Class

The My Next Class tile will show your next upcoming class (either today or the following day). Once you click on the tile, you will see your entire class schedule.
Tasks

The Tasks tab houses your To Do List items, Holds, Communication Center (where you view all email communications sent from MyUNLV) and Agreements. This tile replaces the three communication lists found in the Classic Student Center. If you have items due either a hold, to-do list or agreement - you will see that listed on the tile. Otherwise, the tile will display only the Tasks Icon.

MyAccount

This tile gives you access to your student account. If you owe a balance - you will see that balance displayed on the tile. Otherwise, you will see the account icon displayed on the tile. Your Student Account tile gives you access to view your balance, make a payment, see your payment history, sign up for direct deposit, view and/or consent to receiving an electronic 1098-T, enroll in a payment plan, and view your total account summary.

Academic Records

Under the Academic Records tile, you will find all your academic specific records like grades, your course history, your unofficial transcript, and access to request an official transcript.
Financial Aid

The Financial Aid tile holds all of the financial aid related navigations including award information and a financial aid summary. Here you can accept or decline your financial aid awards, report any outside aid, view a shopping sheet, and view your need summary, cost of attendance, and estimated family contribution.

Student Center Classic

If you are missing the Classic student center, do not fret - you may access the Classic Student Center from this tab. Use this tab to access all your student information in the familiar Classic format. One thing you will notice is the Classic Student Center is not mobile ready or responsive. If you are looking to access your information from a phone or tablet - give the new navigations a try!

If you are looking for help with conducting business in MyUNLV such as enrolling, dropping, swapping, paying tuition, or enrolling in a payment plan - visit the AboutMyUNLV Student Support page.

Mobile Navigation

MyUNLV 9.2 is mobile ready, meaning, you do not need to use an app or a different URL to access MyUNLV on your phone or tablet. The tiles and navigation menus work very similarly in a mobile environment as the desktop environment. In fact, you may find working in a mobile environment seems more streamlined and simple since this is what the Fluidized system is made for! There are a few small navigational items to be aware of when working in a mobile environment.

Accessing Navigations Under a Tile

Once you click on a tile from the Rebel Student Homepage, you will be taken to a display of the primary navigation under that tile. To access the remainder of the navigations under the tile, click the menu navigation icon on the left side of the screen. Here you will see all navigations under the tile you have selected.
The Navigation Banner: Standard Elements

While the majority of your work will take place within the Student Information Tiles, you can use the Navigation Banner to get to business pages as well.

Standard Banner

The standard banner will appear in the upper left hand corner of every MyUNLV 9.2 page. The standard buttons include:

- **Home** - click this to return to your homepage.
- **Notifications** - view any notifications and alerts.
- **Actions List** - click here to see a list of actions for the current window. Actions may include Add to Favorites, Help and Sign Out (this option is always available).

Mobile Navigation

The NavBar is reduced to a More Options menu. The main items of importance found here are the Home link and the Sign Out link. There are other navigations found in the More Options menu, but it is unlikely you will be using these functions in the system.
Some students have differing roles on campus - staff member, student, faculty member. Each of these roles have a different landing (home) page in MyUNLV 9.2. To navigate between these landing pages, you will use the center drop down menu visible from any landing (home) page - called the Homepage Selector.

Depending on your access, you will have the ability to toggle between one to three different home pages; Campus Solutions Administrator, Rebel Student Homepage and Faculty Homepage.
