OVERVIEW

NOVA Geotechnical & Inspection Services (NOVA), formerly Owens Geotechnical, Inc., was established in 2001 to provide geotechnical engineering, environmental consulting, soils inspection and testing, construction materials testing and special inspections to the LV Valley. NOVA provides the highest quality services with 30+ years of knowledge and technical expertise.

Roles and Responsibilities

Seeking full-time Special Inspectors that have at 0-1 year of relevant experience performing all aspects of special inspections on at least one type of construction materials such as soils, masonry, concrete, structural steel, etc. Some of the essential job duties for the special inspector role include: performing observations and testing, writing detailed reports summarizing test results and observations, informing field representatives of observation and test results, communicating with managers, showing commitment as a team player and organizing work and managing time effectively.

Qualifications and Education Requirements

The selected candidates must have a high school diploma, valid Nevada drivers license, minimum of one ICC certification, ACI Field Testing Technician Level I, and NAQTC Sampling & Density certification preferred, excellent oral and written communication skills and excellent client relation skills.
