CLASS CONCEPTS

PROGRAM OFFICER III

Under administrative direction, Program Officer III's are expected to perform the full range of duties as described in the series concept. Work is assigned through goals and objectives and reviewed through goal attainment and as unusual circumstances occur. Incumbents are responsible for administering a large program which affects a significant number of people on a continuing basis. Work involves planning and developing processes and carrying out programs by interpreting and applying broadly stated and nonspecific policies. This class is distinguished from the Program Officer II class by its increased latitude in decision making resulting from coordinating broad nonspecific rules and/or regulations.

PROGRAM OFFICER II

Under general direction, Program Officer II's perform the full range of duties as described in the series concept. Work is assigned through goals and objectives and reviewed through goal attainment and as unusual circumstances occur. Incumbents have a moderate degree of latitude in choosing the manner in which to accomplish goals and objectives. They supervise one or more Program Officer I's or technical/operations staff performing similar duties of a more routine/technical nature. This is the second level in the series.

PROGRAM OFFICER I

Under direction, Program Officer I's are responsible for performing the duties as described in the series concept in a more limited manner. Incumbents have less latitude in choosing the manner in which the work is performed and are typically confined within more stringent regulations and guidelines than the Program Officer II. While this class is expected to coordinate and supervise the work activities of others, this responsibility is typically confined to clerical and non-technical support staff assigned to the program area.
