OVERVIEW

Clark County is a dynamic and innovative organization dedicated to providing top-quality service with integrity, respect and accountability. With jurisdiction over the world-famous Las Vegas Strip and covering an area the size of New Jersey, Clark is the nation’s 14th-largest county and provides extensive regional services to more than 2.25 million citizens and more than 46 million visitors a year. The Department of Public Works delivers a wide range of services to the community including the design, construction, inspection and maintenance of essential public infrastructure such as roadways, bridges, traffic control devices, flood control facilities and trails, for the safety and use of the public.

Roles and Responsibilities

Plans, supervises, reviews and evaluates the work of professional and technical support staff, normally through subordinate lead staff; performs professional level engineering planning, design and construction oversight on difficult, complex and/or major roadway and flood control projects in the County.

Education and Qualifications

Education and Experience: Bachelor's Degree in Civil Engineering or specific engineering field required for the position, AND five (5) years of full-time professional level civil design and project management experience. Prior lead or supervisory experience may be required. Equivalent combination of formal education and appropriate related experience may be considered.

Licensing and Certification: Must possess a valid Nevada Class C driver's license at time of appointment. Must possess registration as a professional engineer in the State of Nevada. If registered in another state, must obtain Nevada registration within one (1) year of the date of hire.
Preferred Skills
Experience in performing the design of streets, highways, traffic signals, drainage facilities, and flood control improvements.
