PROJECT ENGINEER

Posting ID: EM199173D7
Company Website: https://www.gcwengineering.com/

Company: GCW, Inc.
Work Location: 1555 South Rainbow Boulevard
Las Vegas, NV 89146

Position Type: Full-Time
Salary: DOE

College Major(s): Civil Engineering (CEE)
College Level(s): Alumni

OVERVIEW

GCW is a professional engineering/surveying consulting firm incorporated in 1969. In our 50 years, GCW has been a leading provider of a complete range of services related to civil engineering (traffic and transportation engineering, land development, airport design, water/wastewater, hydraulics, flood control), structural engineering, and land surveying.

Roles and Responsibilities
As a Water Wastewater Project Engineer at GCW, you will serve as a technical specialist, staff advisor, and consultant in your area of specialty. This position provides support for design efforts including participation in planning and design, interpretation of design, application of construction methods, resolution and documentation of design conflicts, constructability reviews, etc. As a project engineer, you may have the opportunity to take on project management responsibilities. Supervision of engineering and support personnel is usual at this level, but may often be on a lead and project basis.

Education and Qualifications
Bachelors of Science degree in Civil Engineering is required. Minimum five (5) years of experience in water wastewater treatment facility design is required. Strong AutoCAD Civil 3D software skills are required.

Preferred Skills
Six (6) + years of related experience including municipal water and wastewater treatment facility design, construction administration, pump and lift station design, and municipal engineering is preferred.
