UNLV Radiography Program Application

Introduction

Dear Student:

Thank you for your interest in the Radiography Program at UNLV. The Radiography Program has limited entry and admission is a competitive process. You must be admitted to UNLV and declare your major as CMIPRE in the School of Integrated Health Sciences. In addition to being admitted to UNLV, you must complete and submit the two-page Radiography Program application along with all supporting documents.

Please review the entire application process for consideration for acceptance into the Radiography Program. Information about UNLV can be found on the main website www.unlv.edu. Information on the Radiography Program can be found on the program’s website https://www.unlv.edu/hpds/radiography.

Applications are due by 5 p.m. on the last business day in February. Each of the following MUST be submitted and in your file in the main Radiography office (BHS 345; phone 702 895-3296):

- Proof of admission to UNLV (minimum 2.5 GPA or higher)
- Copies of ALL course grades/transcripts (Do NOT require an official, sealed transcript)
- Degree Worksheet (From a Health Science Advisor)
- Proof of clinical affiliate hospital site visit (Not required for the 2022 cycle)
- Pre-admission counseling with the RAD Program Director (call 702-895-3296)
- Completed application to the RAD Program
- One-page letter to the RAD Admissions Committee
- All supporting documents

Incomplete applications will not be reviewed by the admissions committee.

Please feel free to contact or visit the main Radiography Office by the last business day in February deadline, to ensure your packet is complete. The selected students start the program in the fall semester. Accepted students and alternates will be notified once the selection is complete.

Professionally yours,

Chad Hensley Ph.D., R.T.(R)(MR)
Program Director
Mission, Goals, Curriculum, and Admission

The Radiography Program is housed within the School of Integrated Health Sciences in the Department of Health Physics and Diagnostic Sciences. The Program offers a Baccalaureate degree in Comprehensive Medical Imaging (CMI) – Radiography and an option for a Certificate of Completion for those already having a bachelor’s degree or higher. The program is designed to prepare students for entry-level clinical practice.

Mission
In concert with the Mission and Goals of the University of Nevada, Las Vegas, the Radiography Program is dedicated to the education of students in preparation for entry level clinical practice. Program administration, faculty and staff provide didactic and clinical education opportunities, which adhere to recognized standards, to all eligible students. The Program is committed to graduating students who are prepared to write appropriate certifying examinations and who are prepared to become practicing Radiography Professionals.

Goals and Outcomes
The goals and outcomes of the Radiography Program comprise:

1. Students will become clinically competent.
   a. Students will display proper radiologic positioning skills.
   b. Students will demonstrate proper exposure factor selection.
   c. Students will practice proper radiation safety.
   d. Students will provide appropriate patient care.
2. Students will develop acceptable critical thinking skills.
   a. Students will recognize patient conditions and initiate appropriate treatments.
   b. Students will determine corrective measures that may be needed for suboptimal radiographs.
3. Students will develop acceptable communication skills.
   a. Students will communicate effectively with patients and others.
   b. Students will demonstrate effective written communication skills.
4. Students will demonstrate professionalism.
   a. Students will demonstrate professional behaviors.
   b. Students will demonstrate a professional work ethic.

Curriculum
The Radiography curriculum is a structured program and accredited by the Joint Review Committee on Education Radiologic Technology (JRCERT). The curriculum includes required classes in English, mathematics, computer science and biology; and radiography didactic, laboratory and clinical courses. Upon successful completion of the program, the student is eligible to take the national American Registry or Radiologic Technologists' (ARRT) certifying exam in Radiography.

Admission Process
Applicant files are reviewed by the Program Admissions Committee during the spring semester for acceptance to the class starting in the fall semester. The same admission process is followed for the B.S. in CMI students and RAD certificate students. Admission is based on the accumulation of points. Points are awarded based on the following:

- **Academic history** (Cumulative GPA and selected course grades*)
- **Applicant letter** (See letter guidelines in this application)
- **Prior experience** (see areas within the application)
- **Prior application** (Points are awarded for up to (2) reapplications)
- **Committee points** (Awarded by the admissions committee)

*The following courses are awarded points based on the grades received:

The Field of Radiology
Radiography was the first medical imaging technique developed shortly after the discovery of X-Rays in 1895, by Wilhelm Conrad Roentgen. Since that time, Radiography has remained the basic medical imaging technique with major advances occurring in the field as a result of advances in technology, equipment and the computer. With the development of the mini computer in the early 1970s, medical imaging entered the world of computer technology resulting in improvements in radiographic equipment. Other developments include advanced imaging techniques such as computed tomography, in the early 1970s, and magnetic resonance imaging, in the early 1980's. These advanced imaging techniques have certifying exams, which may require certification in Radiography as a prerequisite.

Career Opportunities
Careers in the field are found in a variety of settings from small rural centers to large urban hospitals and clinics and even in some foreign countries where shortages in Technologists are evident. Radiography is a field of its own with advancements possible with additional education and training. Graduates can enter the field as staff Radiographers and with additional certifications, education and administrative positions or into the field of education.

Facilities and Faculty
Campus facilities in the Rod Lee Bigelow Health Sciences Building provide the student with hands-on experience. These facilities include three radiographic laboratories. The program is affiliated with major hospitals and clinics in the Las Vegas, North Las Vegas and Henderson areas.

Clinical facilities provide students with practical experiences under the direction of imaging professionals and campus faculty. The program provides didactic and laboratory instruction by full-time, part-time and adjunct professionals.

Hospital site visit

Not required for the 2022 cycle due to COVID-19 restrictions

As part of the interview/application process to the Radiography Program, prospective students must visit a Radiology Department in one of our hospital facilities.

Attached is a list of those facilities. To make arrangements for the site visit, call the Chief Clinical Instructor listed at the facility of your choice to set up a time for your visit. Our sites are more than happy to have you visit as you may be a prospective student and later, a prospective employee. During your visit at the hospital, you will be able to observe what radiographers do, talk to practicing radiographers about the field, and observe technologist/patient interactions. You may also ask to observe some imaging areas such as CT (Computed Tomography) and MRI (Magnetic Resonance Imaging) as these are advanced scanning techniques for Radiographers who have additional training and Certification.

This mandatory visit must be scheduled for a minimum of 4 hours. When your visit is complete, have one of the facilities clinical instructors sign the reverse side of this form. It should be included as part of your application.

Thank you for your interest in Radiography and enjoy your visit to the Radiology Department.

I have read about and or researched the patient bill of rights, patient confidentiality concerns and the responsibilities of healthcare workers as well as students to maintain patient personal information, condition, prognosis and all observed about patient as private and privileged information. This will remain strictly confidential from my perspective on my behalf. The Health Insurance Portability and Accountability Act of 1996 (HIPPA) enforcement will also be upheld by me.

Transfer Coursework

UNLV Radiography Program courses are only offered at UNLV. The Radiography Program **does not** accept transfer credit of previous Radiography courses taken at other institutions. The Radiography Program does not accept advanced standing students.

Students entering UNLV’s Radiography Program may transfer some general education coursework from other institutions. The following represents recommended transfer courses from the College of Southern Nevada (CSN) as an example. It should be noted that acceptance of courses is subject to change. Thus, prior to enrolling in a course, the student should verify that a course is still transferable with the UNLV Admissions Office. It is recommended that all students meet with their advisor.

Date
The Applicant’s Letter

(Personal Statement)

The required applicant’s letter helps the admissions committee learn about and better understand the interested student. The typed letter must not exceed one page, and will be graded on the following criteria:

- Knowledge of radiography
- Reasons for entering the program
- Future goals
- Grammar, spelling, organization, etc.

The typed letter should adhere to the following guidelines:

- 1 page maximum
- 12-point font
- Single spaced

The letter should accompany the program application.

Each applicant is responsible for placing the following items in his or her application packet, and delivering it to the Radiography Program Office, located in BHS 345, by the last business day of February.

Packets delivered on or after March 1 will not be accepted.

( ) Proof of admission to UNLV. (Found in MyUNLV under ‘Enrollment Verification’)
( ) Copies of all college unofficial transcripts (include all colleges attended including UNLV)
( ) Copy of degree worksheet (completed by a Health Science Advisor)
( ) Proof of the Clinical Affiliate Hospital site visit (Not required for the 2022 application cycle)
( ) Pre-admissions counseling session with Program Director (Call 702-895-3296 to set up an appointment)
( ) Completed application to RAD Program
( ) Supporting documents for previous experience

Please note: Students who are not accepted and choose to re-apply need to submit another application, applicant letter, transcript(s), and degree worksheet. No second meeting with the program director, nor additional hospital visit is required.
