

UNLV Radiography Program Clinical Obligations

Clinical education is a vital component in the training of a Technologist. The UNLV Radiography Program affiliates with acute care hospitals and outpatient imaging centers to provide a robust clinical education. UNLV faculty will assign students to clinical sites that provide a wide range of procedures.

Clinical placement is solely determined by the Program and it is the student's responsibility to procure transportation to and from their clinical assignments.

Clinical assignments include:

- 24 hours per week during the Fall II and Spring II semesters
- 40 hours per week during Summer I and Summer II semesters
- A minimum of 80 hours of a swing shift is required. A swing shift is defined as a shift ending at or after 7:00pm.

The following is a list of the current clinical affiliates for the UNLV Radiography Program:

Desert Radiology

- 7200 Cathedral Rock Suite 230, Las Vegas
- 6675 S. Cimarron Rd Suite 105, Las Vegas
