Soil Sampling

Rock Sampling

**Please Provide the Following Information About Your Study**

1. **Describe in detail your planned activity.** Be sure to also include a description of site access, quantification of samples, sample periods, how long sample collection will take, include state permit numbers where appropriate.
2. **Provide a legal description (Township, Range, and Section) and map of where your activity will take place.** As these permits are *site specific only*, you must have all locations of your proposed activity clearly identified\*. An electronic copy of a map depicting the general location and specific sample sites on a 7.5-minute map is preferred. Otherwise, hardcopies can be submitted by mail or FAX to (702) 515-5155.
3. **Objective and Justification.** Describe the purpose of your study, and justify both the tasks involved and your study sites.
4. **Timeframe:** Describe when you will be conducting your study, how frequently you will be going to each site, the time of day, and range of dates your study will take place over.
5. **Intensity:** Describe how many people your study will involve and how many vehicles you will be using to get to the site.

\*If you do not yet know the site-specific details, you may conduct reconnaissance visits under casual use. All access must occur using existing roads (or designated, as appropriate), use cannot modify the condition of those roads, cross country travel must occur on foot.
