- Impact-resistant frame
- Dual strap design allows for adjustability
- 100% UV Protection

Specifications

- Lens: Optimum
- Frame: Plastic
- Fit: Large
- Visible Light Transmission: 30%

Reviews*

"Amazing peripherals, and face fit."

"The field of vision is excellent- pretty much what you'd expect from a goggle this large... These also never fog up on me, and I sweat a good amount when I snowboard."

"These goggles are massive. However, this allows for incredible vision. They are also incredible in that they don't fog up. As soon as my warm breathe gets inside the goggles the fog immediately disappears, which was not the case with any previously purchased goggles."
