OVERVIEW

FOREO is a wildly innovative brand of 3000+ revolutionaries who opt for bold instead boring every time. Our Swedish beauty tech company is forever hungry for something new—whether it’s a groundbreaking high-tech beauty product or an unorthodox way to work smarter. If breaking molds and challenging standards is your thing, check out our jobs page at foreo.talentlyft.com/#home to see what’s available.

FOREO is seeking proactive and hands-on new team member to join our award-winning US team as a Strategy & Analytics Assistant. This role will assist Director of Strategic Planning - Sales to harness data and insights to drive sales programs’ competitive strategy. The Strategic & Analytics Assistant will be responsible for collecting, interpreting, and analyzing data from various sources with the purpose of developing and implementing analytics solutions, tracking key performance metrics to improve business performance, and presenting reports to team and management.

Roles and Responsibilities
1. Data Management
   Manages data and coding using Excel, SQL, Tableau, and Python
2. Data Analysis
   Analyzes data and reports on sales performance
   Analyzes data and reports on EDU budget allocation
3. Technology & Tools Management
   Assists supervisor with Tableau and SQL scripting
4. Supports EDU strategy and allocation
5. Tracks sales performance across accounts
6. Other duties as assigned, to include various ad-hoc research projects and/or special projects
7. Regular and reliable attendance is an essential function of the job

Knowledge, Skills and Abilities:
Strong interpersonal and time-management skills.
An analytical mind and inclination for problem-solving
Results-driven, comfortable working on analytical tasks and trend forecasting and reporting results
Must be detail oriented and able to handle complex instructions with care and follow-through
Demonstrate accuracy and thoroughness in execution of assigned tasks
Ability to adapt to changes and work in a fast paced, demanding environment

**Education and Qualifications**
Bachelor’s degree in Analytics, Business, Computer Science, or related field
Minimum 3 years of relevant experience
Advance proficiency with Google Suite and Microsoft Office applications
Proficient in SQL, Tableau, and Python
Strong communication skills with the ability to clearly communicate in English, both verbally and in writing
