

Protocol for Incidents Involving Students of Concern

The purpose of this protocol is to guide and sustain a campus network where the UNLV campus community can respond proactively to situations involving students of concern by connecting those students to essential support services. It is the intent of this protocol to work in a coordinated and collaborative fashion to address students of concern in a timely and consistent manner. By utilizing this protocol to share appropriate information, UNLV students of concern can receive and/or stay connected to the academic and student wellness services they need. *Note: This protocol is for cases originating in any department that do not result in a direct self-referral to the UNLV Student Counseling and Psychological Services.*
