TEST ENGINEER JOB OPPORTUNITY

Posting ID: E050616

Company: BMM Testlabs	**Website: www.bmm.com**
Job Title: Test Engineer	**Work Location: Las Vegas**
Position Type: Full-Time	**Salary: Based on experience**
College Major(s): EE, CPE, CS	**College Level(s): Graduate**

OVERVIEW

BMM is the longest established and most experienced private independent gaming certification lab in the world, providing professional technical and regulatory compliance services to the gaming industry since 1981.

BMM employs some 300 people in 13 global locations, serving over 400 jurisdictions. BMM's world headquarters are in Las Vegas (USA), with offices in Mexico City (Mexico), Lima (Peru), Melbourne and Sydney (Australia), Singapore, Macau (SAR, China), Barcelona (Spain), Vienna (Austria), Bologna (Italy) and Midrand (South Africa).

BMM is seeking qualified and talented individuals to join its Service Delivery team in Las Vegas.

Roles and Responsibilities

Under the direct supervision of a Service Delivery Group Manger, a Test Engineer is responsible for the testing and adherence of gaming technology to jurisdictional regulations and technical standards. The position may also involve field services work, including gaming device and gaming system inspections as well as general field support.

Working as a member of a team the test engineer will:
- Assess gaming technology integrity, accountability and functionality.
- Perform statistical analysis of gaming device and game probabilities.
- Review gaming device and system source code.
- Assist with the development of testing procedures.

Qualifications and Education Requirements
- Graduate from an accredited college or university with a Bachelor's degree in electrical engineering, computer engineering, computer science or math.
- Ability to program in at least one high level language such as C++, C#, or Java.
- Experience with Windows, UNIX, and Linux operating systems.

Preferred Skills

- Experience with the development or testing of gaming technology software or hardware.
- Experience with the development or testing of gaming technology communication protocols such as SAS, G2S, and S2S.

Benefits

• Competitive salary based on experience
• Extensive on-the-job training
• Company health, dental & vision plan
• 401K program

Requires successful completion of a background investigation
Travel may be required.

Where To Apply

Application is by email with resume and cover letter to Wendy Anderson, Chief of Staff
