TEST ENGINEER

Posting ID: EM189304FA  
Company: BMM Testlabs  
Company Website: https://bmm.com/

Work Location: 815 Pilot Road Suite G Las Vegas NV 89119  
Position Type: Full-Time  
Salary: 
College Major(s): Electrical/Computer Engineering (EE/CpE), Computer Science (CS)  
College Level(s): Alumni

OVERVIEW

BMM is the longest established and most experienced private independent gaming certification lab in the world, providing professional technical and regulatory compliance services to the gaming industry since 1981. Under the direct supervision of a Service Delivery Group Manager, a Test Engineer is responsible for the testing and adherence of gaming technology to jurisdictional regulations and technical standards. The position may also involve field services work, including gaming device and gaming system inspections as well as general field support.

Roles and Responsibilities
Working as a member of a team the test engineer will:
* Assess gaming technology integrity, accountability and functionality.
* Perform statistical analysis of gaming device and game probabilities.
* Review gaming device and system source code.
* Assist with the development of testing procedures.

Education and Qualifications
* Graduate from an accredited college or university with a Bachelor’s degree in electrical engineering, computer engineering, computer science or math.
* Ability to program in at least one high level language such as C++, C#, or Java.
* Experience with Windows, UNIX, and Linux operating systems.

Preferred Skills
* Experience with the development or testing of gaming technology software or hardware.
* Experience with the development or testing of gaming technology communication protocols such as SAS, G2S, and S2S.
