Welcome to University of Nevada Las Vegas College of Fine Arts!

Vocal health is important for all performing artists and essential to lifelong success for singers.

Understanding basic care of the voice is essential for performing artists who speak, sing, and rehearse or teach others.

Practicing, rehearsing, and performing is physically demanding.

Performing artists are susceptible to numerous vocal disorders. Many vocal disorders and conditions are preventable and/or treatable.

Sufficient warm-up time is important.

Begin warming up mid-range, and then slowly work outward to vocal pitch extremes.

Proper alignment, adequate breath support, and correct physical technique are essential.

Regular breaks during practice and rehearsal are vital in order to prevent undue physical or vocal stress and strain.

It is important to set a reasonable limit on the amount of time that you will practice in a day. Avoid sudden increases in practice times.

Know your voice and its limits, and avoid overdoing it or misusing it.

Maintain healthy habits. Safeguard your physical and mental health.

Drink plenty of water in order to keep your vocal folds adequately lubricated. Limit your use of alcohol, and avoid smoking.

Day-to-day decisions can impact your vocal health, both now and in the future.

Since vocal strain and a myriad of other injuries can occur in and out of school, you also need to learn more and take care of your own vocal health on a daily basis. Avoid shouting, screaming, or other strenuous vocal use.

If you are concerned about your personal vocal health, talk with a medical professional.

If you are concerned about your vocal health in relationship to your program of study, consult the CFA Consortium for Health and Injury Prevention, and/or UNLV Student Wellness Center at: www.unlv.edu/studentwellness/health-center.

To learn more about health issues of performing artists, and how to avoid injury, then consider enrolling in one of the following courses currently offered by the College of Fine Arts:

MUS 417, 746 Vocal Pedagogy
MUS 480, 580 The Healthy Musician
MUS 748 Music Wellness
