OVERVIEW

Structural Engineer needed to help us take over the world!

We're proud to have been one of only six engineering firms in the entire country to be ranked both as one of the nation’s best engineering firms to work for and as one of the nation’s fastest growing engineering firms.

Roles and Responsibilities
We’re looking for an outstanding structural engineer who has what it takes to thrive in a project engineer or project manager level position with our firm.

Education and Qualifications
To be considered for this position, you must have a degree in civil or structural engineering with 0-5 year experience in design of structures utilizing wood, concrete, masonry, and steel

How to Apply
