OVERVIEW

Adobe is changing the world through digital experiences. For more than two decades, Adobe has been at the heart of making engaging experiences happen, and we fuel the content creation and delivery ecosystem in a way no other technology company can.

Whether it's a smartphone or tablet app, a game, a video, a digital magazine, a website, or an online experience, chances are that it was touched by Adobe technology. Our tools and services enable our customers to create groundbreaking digital content, deploy it across media and devices, and then continually measure and optimize it based on user data. By providing complete solutions that combine digital media creation with data-driven marketing, we help businesses improve their communications, strengthen their brands, and ultimately achieve greater business success.

Adobe's business is focused on the opportunities in two key growth markets—Digital Media and Digital Marketing.

Digital Media
Adobe's content authoring solutions lead the industry, enabling our customers to more effectively produce, distribute, and monetize digital content.

Digital Marketing
Adobe delivers the most innovative solutions for optimizing marketing campaigns and
maximizing return on every marketing dollar.

Roles and Responsibilities
We are looking for someone who loves building services for the creative professional and implementing features across the full LAMP stack. You’ll be working as part of a team, creating innovative new features and maintaining existing ones for Adobe Stock (stock.adobe.com). The perfect candidate will need a keen eye for details and high standards for code quality and efficiency.

What you’ll do

• Work in small cross discipline teams
• Integrate Web services into Adobe’s creative suite of products e.g. Photoshop
• Write and test clean, secure and scalable features and services
• Solve non-trivial coding and architecture problems with simple and innovative solutions
• Integrate advanced technologies such as image processing from Adobe’s research Labs.

At Adobe, we’re changing the world. How? We give people the tools to bring their ideas to life and create content that makes life more fun and work more meaningful. We give businesses and organizations the power to truly engage their customers.

We're the ones behind the gorgeously designed content that streams across your laptop, TV, phone, and tablet every day—and we’re the ones who harness the massive power of big data to help companies move from data to insight and insight to action by delivering content that people crave most.

We’re a company that understands that product innovation comes from people innovation, and that’s why we invest in cultivating leaders throughout the organization. If you’re passionate about leading from where you sit, join us.
