OVERVIEW

As an engineering leader with a strong foundation in research and development, Gates is committed to advancing the science of motion performance by developing safe, forward-thinking products, services

Roles and Responsibilities
**Please note there is no relocation available for this role.**

Gates Corporation has exciting opportunities for an Electrical Engineering Intern based at our Columbia, MO facility.

The intern position will allow the student to gain real world manufacturing experience by performing specialized duties and assignments that align with the company’s philosophy of continuous improvement.

The intern will manage projects independently and obtain constructive feedback from management through a formal review program. Gates will consider flexibility for the student’s educational schedule.

Education and Qualifications
Qualified candidates will be an Electrical Engineering major (student) with a minimum 2.7 cumulative GPA requirement.
Specific skills include proficiency in AutoCAD, Solid works, Visual Basic and Microsoft Office.
