OVERVIEW

Sol-Up is a local solar electric panel installation company. While many solar companies search for the cheapest solar modules available, Sol-Up USA is committed to providing the latest solar energy system technologies at affordable prices. As an engineering organization, Sol-Up only selects products that are designed and certified for the extreme conditions of the Southwest.

We are looking to hire a technically-savvy individual who can assist us in providing technical support for our customers!

Roles and Responsibilities
Provide technical support for our customers regarding their solar systems in the form of phone calls and e-mails. Actively monitor solar panel systems via online platforms. Responsible for keeping track of warranted equipment/RMA's (Return Merchandise Authorization).

Education and Qualifications
Average computer skills, Microsoft Office, willing to learn and able to learn fast, good communication skills. We are also seeking someone willing to work on Saturdays.

Preferred Skills
Knowledge in solar energy.
