ENGINEER INTERN - STRUCTURAL

Posting ID: IN16801517
Company: Innova Technologies, Inc.
Position Type: Part-Time
College Major(s): Civil Engineering (CEE)

Company Website: http://innovanv.com/
Work Location: Las Vegas
College Level(s): Undergraduate-Senior, Graduate Student, PhD. Student

OVERVIEW
Innova Technologies is looking for an energetic, self-motivated, and passionate individual to join our engineering team as a qualified intern to begin their career growth on the right path. Working on projects both around the world and here at home, the company seeks an individual who is ready to start putting their classroom work into practice by participating in various stages of structural engineering work. Individuals should be prepared to work in a fast-paced, fun, team-centric environment, and will gain broad experience in various aspects of structural engineering not discovered in your coursework.

Roles and Responsibilities
• Assist with performing design calculations for various projects, using various materials, using the latest Codes and Standards.
• Assist by providing support in the verification of designs by building and testing models.
• Assist by identifying, isolating, and resolving problems under the direction of other engineers.
• Assist in the preparation of reports by collecting, analyzing, and summarizing structural engineering data and trends.
• Assist with field assessments under the direct supervision of other engineers.

Education and Qualifications
Company is looking for an undergraduate or graduate student majoring in civil engineering with emphasis in structural engineering. This person should have excellent analytical and math skills, with the ability to work in teams.
Major: Civil Engineering, Emphasis - Structures

Preferred Skills
Math, Analytical
