An Introduction to the Microbiology (MB) Subprogram

SoLS Research Faculty Affiliated with the Microbiology (MB) Graduate Subprogram
- Brian Hedlund
- Duane Moser
- Aude Picard
- James Raymond
- Eduardo Robleto
- Martin Schiller
- Boo Shan Tseng
- Helen Wing

Other Active Faculty Affiliated with the Microbiology Graduate Subprogram (available to participate in comprehensive exams)
- Joseph Nika (Associate Professor in Residence)
- Kathryn Rafferty (Assistant Professor in Residence)
- Kurt Regner (Professor in Residence)
- Christy Strong (Associate Professor in Residence)

Required Courses for All Degrees
- **Biol 701**—Ethics in Scientific Research (1 credit).
  Required class for all students in both degree programs.

- **Biol 790**—Research Colloquium in Life Sciences
  Students may take this course for credit (1-2 credits/semester for a maximum of 9 credits toward the degree), but all students (including non-enrolled) must participate each semester.

Core Courses for MS and PhD
MS and PhD students must take at least **ONE** of the following Core Classes:
- **Biol 609**—Virology (3 credits)
- **Biol 618**—Microbial Ecology (3 credits)
- **Biol 653**—Immunology (3 credits)
- **Biol 660**—Microbial Physiology (3 credits)
- **Biol 664**—Bacterial Pathogenesis (3 credits)
- **Biol 685**—Microbial Genetics (3 credits)
- **Biol 702**—Biology Graduate Core (3 credits)

Elective Courses for MS and PhD
- MS students must take **TWO** of the following electives.
- PhD Students must take **FIVE** of the following electives.

**Note:**
- Core courses (above) that are not being used to satisfy Core Requirements may be taken as Electives.
- Elective courses must be approved in advance by the student’s Research Advisory Committee.
- The Research Advisory Committee may require the student to take specific courses, depending on the person’s academic background and research objectives.

**Elective Course Lists**
- **Biol 607**—Molecular Biology (3 credits)
- **Biol 609**—Virology (3 credits)
- **Biol 616**—Bioinformatics (3 credits)
- **Biol 618**—Microbial Ecology (3 credits)
• **Biol 625**—*Genomics* (3 credits)
• **Biol 628**—*Biometry* (3 credits)
• **Biol 653**—*Immunology* (3 credits)
• **Biol 660**—*Microbial Physiology* (3 credits)
• **Biol 664**—*Bacterial Pathogenesis* (3 credits)
• **Biol 674**—*RNA Biology* (3 credits)
• **Biol 678**—*Cancer Cell Genetics* (3 credits)
• **Biol 685**—*Microbial Genetics* (3 credits)
• **Biol 702**—*Biology Graduate Core* (3 credits)
• **Biol 794**—*Molecular Biology Techniques* (3)
• **Chem 770**—*Protein Chemistry* (3 credits)
• **Chem 771**—*Metabolism and Energetics* (3)
• **Chem 772**—*Nucleic Acid Chemistry* (3 credits)
• **EOH 747**—*Transmission of Infectious Disease* (3)
• **Geol 720**—Advanced Geochemistry (4 credits)
• **Stat 691**—*Statistics for Scientists I* (3 credits)
• **Stat 692**—*Statistics for Scientists II* (3 credits)

**Research Courses**
- MS students must complete **18 credits** of 700-level courses.
- PhD students must complete **24 credits** of 700-level credits (excluding Biol 799).

The following “research based” classes may be used to satisfy 700-level requirements.
- **Biol 789**—*Independent Graduate Study in Life Sciences* (1-3 credits/semester; may be repeated for a max. of 9 credits).
- **Biol 790**—*Research Colloquium in Life Sciences* (1-2 credits/semester; repeated for a maximum of 9 credits).
- **Biol 791**—*Research Laboratory Discussion in Life Sciences* (1-2 credits/semester; may be repeated for a maximum of 9 credits toward the degree). Can be taken to receive credit for participating in Mentor’s lab meeting.

**Seminar Requirements**
- **Biol 796**—*Graduate Seminar in Life Sciences* or **Biol 793**—*Advanced Topics in Life Sciences*
Students may take these courses for credit (1-2 credits/semester for a maximum of 9 credits toward the degree). All MS students and all PhD students, who have yet to take their comprehensive exam, should take this course every semester.

**Graduate Program Policies: All Students**
- The online Graduate Catalog and the SoLS Graduate Handbook that was available at the time of matriculation will be the source for the enforced graduate policies for each student.
- All students must form a Research Advisory Committee within the first semester after matriculation.
- All students must meet with his/her Research Advisory Committee at least once during the calendar year and submit a written report to the GOC.
- **Note:** A more thorough description of Graduate Program Policies is provided in the SoLS Graduate Programs Handbook.

**MS Students**
1. MS students must form a Research Advisory Committee consisting of at least **four** experts in their field of study. A typical committee consists of:
   - Primary Research Mentor & Academic Chair (Note: these are not always the same person¹)

¹ for clarification of these terms, see SoLS Graduate Programs Handbook
• Two SoLS Graduate Faculty (Should include the SoLS Academic Chair if the Primary Research Mentor’s primary appointment is not in SoLS)
• Graduate College Representative who has official grad faculty status within another academic unit on campus

2. MS students must complete a minimum of 30 credit hours beyond the baccalaureate degree.
   • Credits for the MS degree will be obtained from didactic classes at the 600 and 700 level.
   • MS students must take Biol 701—Ethics in Scientific Research (1 credit) during their first semester in the program and either attend the Ethics components of Biol 702 or complete UNLV RCR training.
   • MS students must take at least 4 credits of Biol 796—Graduate Seminar or Biol 793—Advanced Topics. Students may enroll for more credit (up to 9 credits can count toward the degree), but they must participate each semester even if not enrolled.
   • MS students must take 6 credits of Biol 797: Thesis. Students can enroll for more credits of Biol 797, but only 6 will count toward the degree.
   • MS students must participate in Biol 790: Research Colloquium in Life Sciences. Students not enrolled must also participate each semester.

3. The student’s Research Advisory Committee will determine the course of action and coursework for each individual MS student.
4. The MS within SoLS is a Research Degree. Many credits will be earned in “research-oriented” courses that include summer work.
5. Students must complete a written thesis and publicly defend their work.

Typical Timeline for the MS Degree
Enroll in a minimum of 6 credits each semester to fulfill course and research requirements.

Year 1:
• Ethics (1 credit)
• Seminars (2 credits)
• Colloquium (3 credits)
• Two didactic courses (6 credits)
• Research credits (3 credits)
• Spend full time in the laboratory or field over summer.

Year 2:
• Seminars (2 credits)
• Colloquium (2 credits)
• One didactic course (3 credits)
• Research credits (2 credits)
• Thesis credits (6 credits)
• Write and defend Thesis

PhD Students
1. PhD students must form a Research Advisory Committee consisting of at least five experts in their field of study. A typical committee consists of:
• Primary Research Mentor & Academic Chair (Note: these are not always the same person\(^2\))
• Two or three SoLS Graduate Faculty (Should include the SoLS Academic Chair if the Primary Research Mentor’s primary appointment is not in SoLS)
• Graduate College Representative who has official grad faculty status within another academic unit on campus
• Outside University Member, who must be granted conditional Grad Faculty status

2. Doctoral students are required to complete a minimum of 60 credit hours of graduate work.
   • Credits for the PhD degree will be obtained from classes at the 600 and 700 level.
   • PhD students must enroll in Biol 701—Ethics in Scientific Research (1 credit) during their first semester in the program and either attend the Ethics components of Biol 702 or complete UNLV RCR training.
   • PhD students are required/highly recommended to take Biol 702—Biology Graduate Core (3 credits) during their first semester in the program (waivers granted on an ad hoc basis).
   • PhD students must take at least 6 credits of Biol 796—Graduate Seminar or Biol 793—Advanced Topics. Students may enroll for up to 9 credits, but they must participate each semester even if they are not enrolled.
   • PhD students must participate in Biol 790—Research Colloquium in Life Sciences each semester even if they are not enrolled in the class for credit.
   • PhD students are required to take Biol 767—Dissertation Grant Proposal Writing (3 credits) one year after passing their comprehensive exam. Syllabus available upon request from Dr. Wing.
   • PhD students are required to take 12 credits of Biol 799—Dissertation. Students may enroll for more credits of Biol 799, but no more than 18 will count toward the degree.

3. The student’s Research Advisory Committee will determine the course of action and coursework for each individual PhD student.

4. All PhD students are required to instruct two lab or discussion sections of a UNLV biology class.

5. All PhD students must pass a comprehensive exam before being admitted to candidacy. PhD students are required to take this exam prior to the beginning of the sixth semester in their graduate program, typically this occurs in the 4\(^{th}\) or 5\(^{th}\) semesters. The comprehensive exam is administered by a separate Examination Committee that must exclude the student’s research mentor. The exam consists of a written portion in the form of detailed written responses to comprehensive questions and an oral defense of the work to the Exam Committee.

6. The PhD within SoLS is a Research Degree. Many credits will be earned in “research-oriented” courses that include summer work.

7. Students must complete a written dissertation and publicly defend their work.

**Typical timeline for the PhD Degree**

Enroll in a minimum of 6 credits/semester to fulfill course and research requirements.

Year 1:
- Biology Graduate Core (3 credits)
- Ethics (1 credit)
- Seminars (3 credits)
- Colloquium (3 credits)
- Two didactic courses (6 credits)
- Spend full time in the laboratory or field over summer.

Year 2:
- Seminars (3 credits)
- Colloquium (3 credits)
- Three didactic courses (9 credits)
- Spend full time in the laboratory or field over summer.

\(^2\) for clarification of these terms see SoLS Graduate Programs Handbook
- Take Comprehensive exam over the summer – must be taken before the start of your sixth semester.

Year 3-6:
- Colloquium (3 credits)
- Research credits (18 credits)
- Dissertation Proposal Writing (3 credits)
- Dissertation credits (12 credits)
- Work full time on research project (including summers).
