OVERVIEW

Think you have what it takes to strengthen our nation’s power grid? Michels is one of the largest, most sought-after power delivery contractors in the United States. They do it all – from building transmission lines and substations to distribution networks and inside wiring. They also restore power after natural disasters strike. Their work improves lives. Find out how a career at Michels can change yours.

Roles and Responsibilities
As an Associate Project Manager, your key responsibilities will be to serve as project support by planning, organizing, and implementing project management principles. This position must demonstrate an understanding of how the business runs, how changing circumstances are handled, and who to contact when there are questions. It is essential to possess excellent verbal and written communication skills. Critical for success are the abilities to work independently and as a part of a team, meet deadlines, and anticipate and meet internal customer needs.

Why Michels?
They are consistently ranked among the top 10% of Engineering News-Record’s Top 400 Contractors
Their steady, strategic growth revolves around a commitment to quality
They are family owned and operated
They invest an average of $5,000 per employee on training each year
They reward hard work and dedication with limitless opportunities
They believe it is everyone’s responsibility to promote safety, regardless of job titles.

Why you?
You thrive in fast-paced environments under tight deadlines
You relish new challenges and evolving technology
You enjoy collaborating and communicating with your teammates
You like to know your efforts are noticed and appreciated
You are adaptable to varying expectations and requirements
You are a self-starter with a high attention to detail
You believe that individual commitment to a group effort is key to success

Education and Qualifications
Bachelor’s degree in Project Management, Construction Management, Engineering, or related field, 0-3 years of related experience, or equivalent combination
A valid driver license for the type(s) of vehicles you may be driving and an acceptable driving record
Microsoft Office Suite
Travel throughout California, which may include extended duration, is required. Must have the ability to commit to long term onsite projects.
