Welcome!

Thank you for your desire to learn more about the University of Nevada, Las Vegas Performing Arts Center. We think you've made a wonderful choice! While reading the following pages of information you will learn about our facilities, people, services, rates, and procedures. For your convenience, we have included maps and diagrams. We've also included some forms for you to complete. These will give us a better idea of who you are and what your needs will be. We'd like to know how we can help you accomplish your goals and produce your event in the way you envision it. With three very different and attractive theatres for you to enjoy, we hope to place your event in the facility best suited to your needs and those of your customers.

**The Artemus W. Ham Concert Hall**

This 1,832 seat facility, the only true symphony hall in the state of Nevada, was constructed in 1976. It features excellent acoustics, a spacious and attractive lobby with fine art on display, velour continental seating, choice of concert grand pianos, excellent sightlines, and accommodations for those with physical challenges. Ask Yo-Yo Ma, Itzhak Perlman, or Kurt Masur about the Concert Hall’s outstanding acoustics and you’ll hear only raves!

A non-proscenium open stage is flanked by 20’ high concert towers for maximum sound reflection. Overhead, a myriad of hexagonal acoustic clouds tune the room to perfection, assisted by the absence of parallel surfaces for maximum acoustical performance. The Ham Concert Hall is filled with an abundance of high quality orchestra chairs and music stands, sturdy band and choral risers, a theatrical lighting system and a basic public address system.

Although no permanent rigging system exists, ground support and trussing can be rented. Draperies include a “lipstick” red main traveler, a black-velour rear traveler, a white cyclorama, and a black sharkstooth scrim. The latter hang on a single rear counterweighted pipe, or a single backdrop can be hung. Offstage amenities include an attractive, furnished Green Room adjacent to two solo dressing rooms plus two chorus dressing rooms with ten makeup stations each, toilets and showers. Our large loading dock accommodates two semi-trailers and one tour bus or small truck.

**The Judy Bayley Theatre**

This proscenium arch venue was constructed in 1972 and is the home of UNLV’s excellent performing arts programs: including the Nevada Conservatory Theatre, UNLV Dance, UNLV Opera Theatre and UNLV Jazz Studies. This attractive space features a steeply raked auditorium with continental seating for 550 patrons. The 39’ deep stage features a modified thrust (or “Apron”) that measures 12’ as well as two small side stages. The proscenium opening is 20’ high by 40’ wide. A fully rigged single-purchase counterweight fly system with a 65’ high steel gridiron is available. The Judy Bayley Theatre (JBT) has an attractive red main curtain, a full set of black velour panels, legs and borders, and a white cyclorama. JBT has a full theatrical lighting system with an ETC Expression 3 console and a modern ETC dimming system. It also has a modern theatrical sound system, a small Green Room, and two chorus dressing rooms.

**The Black Box Theatre**

This flexible 120 to 175-seat experimental theatre was built in 1983 and is part of UNLV’s Alta Ham Fine Arts Complex. A rectangular space, the Black Box contains neovoflex seating risers that can be set up in arena, thrust, or proscenium configurations. A 20’ high overhead stretch-wire grid allows technicians to work with house lighting and sound systems. The Black Box Theatre has a Green Room and two dressing rooms immediately adjacent to the east wall. The room is surrounded by closeable black velour drapes that can form entrances and exits wherever you need them. Ideal for theatre, this intimate room also can accommodate recitals, small lectures, dance and social events.

BOOKING PROCEDURES AND INFORMATION

RENTAL APPLICATION

Prospective tenants who have not rented our facilities previously should complete a Rental License Application, which is included within this guide. This guide also contains rate schedules for facility rental and most itemized event costs. Upon return of your completed Rental License Application, it will be reviewed and, in our sole determination, we will approve or disapprove your requested event date, based on the following criteria:

a) Comparison to other prior successful events
b) Event feasibility and technical suitability for the venue
c) Applicant’s previous event experience and promotion history
d) Applicant’s financial resources
e) Availability of the dates requested

FIRST TIME APPLICANTS PLEASE NOTE:

Submittal of the Rental License Application does not guarantee an award of dates. Dates will not be held for “first-time” customers without an approved Rental License Application. Date holds will not be retained for more than 30 days without renewal by further contact with the Performing Arts Center.

EXECUTION OF RENTAL AGREEMENTS

All arrangements are considered tentative until the Rental Agreement has been fully executed. The Rental License Agreement must be submitted and signed by the promoter/user, at which time the rental deposit may / may not become due. The standard rental deposit is the full rental fee plus (in rough terms) 50% of estimated costs. When deemed appropriate, additional rental deposits may be required by Performing Arts Center management to cover the balance of the minimum rental fee, estimated staffing costs, equipment use fees and technical service expenses.

After discussions with the promoter/licensee, the P.A.C. Director of Artistic Programming & Production will prepare an itemized estimate of reimbursable event related expenses that the licensee will be responsible for at the time of settlement. A copy of this estimate will be provided to the promoter/licensee/user and will be considered an addendum to the Rental Agreement (contract) for the facility being rented.

Tickets may not be sold for an event until the licensee has returned the signed Rental Agreement with deposit. The Performing Arts Center also maintains the right to insist on having the Certificate of Insurance on file prior to an event going on sale. The promoter/licensee/user is not permitted to advertise the event until the Rental Agreement for that specific event has been signed and returned with the required deposit.

The P.A.C. Director of Artistic Programming & Production can be reached at (702) 895-4712 to answer specific questions about Rental Agreements.

SETTLEMENTS

At the conclusion of the event, the promoter/licensee/user will be responsible for settling all facility expenses. The settlement may take place at the Performing Arts Center or be conducted via mail, e-mail, or fax. Settlements may be arranged on the next working day following the event, or later (at the discretion of Center directors). All “night of” settlements MUST be pre-arranged. Upon settlement, the promoter/licensee/user will be presented with available documented facility expenses including, but not limited to, facility rental and labor balances, ticketing expenses, hourly stage crew, front-of-house staff, equipment use fees, catering expenses (if applicable), and ticket office settlements.

If, at the sole discretion of the Performing Arts Center, ticket sales proceeds are insufficient to cover facility expenses, promoter/licensee/user may be required to make additional deposits prior to the event. If such deposits are not made within the designated time period, the event may be cancelled resulting in the promoter/licensee/user’s deposit being forfeited. In the event that ticket proceeds do not equal the expenses due, the promoter/licensee/user will be responsible for the amount due at the time of settlement.

Refunds of proceeds (minus outstanding expenses) to the promoter/licensee/user will be transferred in check from within five (5) working days of the settlement. Any unresolved or outstanding expenses from individual events MUST be settled within thirty (30) days of the event’s conclusion, after which a late fee of five (5) percent may be applied.
BOOKING PROCEDURES AND INFORMATION

Any questions regarding payment of financial settlements should be directed to the Director of Finance & Guest Relations at (702) 895-4711.

INSURANCE REQUIREMENTS

The Promoter/Licensee shall carry a policy of Commercial General Liability Insurance (Insurance Services Office form or equivalent approved by the UNLV Controller’s Office) covering Promoter/Licensee and the Performing Arts Center (University of Nevada System Board of Regents). Licensee must carry a combined policy limit not less than the Minimum Liability Insurance Limit specified in the Rental Agreement (normally $1,000,000.00) and the certificate must cover the entire period of the event, providing coverage on an “occurrence” basis (as opposed to “claims made”).

The Certificate of Insurance will name the UNLV Performing Arts Center, its agents, officers and employees as additional insureds. The Licensee agrees to indemnify, defend and hold harmless the Performing Arts Center and the University of Nevada Board of Regents from any claim or loss or damage arising out of the Event and all activities relating thereto, except those occurring by reason of the Performing Arts Center’s sole negligence.

PREPARATION OF INSURANCE CERTIFICATES

The University’s Risk Management Division has approved two alternate methods in preparing the Certificate of Insurance:

1. If Certificate Holder reads: “Board of Regents, Nevada System of Higher Education on behalf of the University of Nevada, Las Vegas and the Performing Arts Center,” the Additional Insured may simply be listed as “Certificate Holder.”

2. If the Certificate Holder is not designated, as above, then the Additional Insured must carry the above clause displayed in italics.

The University address (Box 455005, Las Vegas, Nevada, 89154-5005) must appear on the Certificate. A Sample Certificate of Insurance is included in this guide on the next page.

ROCK CONCERT PROMOTION

ROCK CONCERT PROMOTION POLICY

1) Any promoter utilizing UNLV Performing Arts Center Facilities for the purpose of presenting a rock music concert (as defined by the Clark County Rock Concert Promotion Ordinance) must have a current, valid concert promotion license. This can be obtained from the Clark County Business License Division.

2) Anyone not possessing said license will be required to submit to the Performing Arts Center a UNLV Application for Concert Promotion. This application must provide the Performing Arts Center with references from the managers of three (3) reserved seat facilities of at least five-hundred (500) seats or more related to the applicant’s concert promotion there. Based on this information, the Performing Arts Center will determine the applicant’s suitability for use of UNLV’s Rock Concert Promotion License Waiver. A license waiver application (Application for Concert Promotion) must be submitted for each concert proposed by an unlicensed promoter.

3) In addition, the Performing Arts Center will require the applicant to provide the Performing Arts Center with information about three (3) concerts performed by the artist(s) that were successful in terms of crowd control and artist(s) behavior.

4) The Performing Arts Center will charge a $500.00 fee for each waiver granted. The Application form is an application only and does not constitute acceptance by the Performing Arts Center until researched and approved.

GENERAL
The Artemus W. Ham Concert Hall is located on the campus of the University of Nevada, Las Vegas. The 1,832 seat facility was constructed in 1976.

AUDITORIUM
The auditorium features continental seating throughout the main floor and balcony. The capacity of the main floor permanent seats is 1,349 and the balcony capacity is 483 for a total permanent capacity of 1,832.

LOBBY
The main lobby is 40’ x 145’ and contains lounge seating for 77 people. Within the lobby area are public restrooms and a concession serving area. Merchandise sales require tables.

PERFORMER’S WING
The performer’s wing, adjacent to stage right, houses the performer’s lounge (green room) and the dressing rooms, as well as production offices. The green room is 40’ x 50’ and contains 2 tables, a drinking fountain and lounge seating for 40 people. There is also an audio and video stage monitoring system.

DRESSING ROOMS
The men’s and women’s dressing rooms contain makeup stations for 10 persons each as well as sinks, toilets and showers. The two private (solo) dressing rooms each contain two makeup stations, a day bed, sink, toilet, and shower. Three of these rooms are A.D.A. accessible, including the “star” dressing room.

RIGGING SYSTEM
The facility does not contain a rigging system. There is no gridiron and the unusual configuration of the lighting catwalks and sound clouds virtually precludes even the temporary hanging of pipes or rigging.

SHOP FACILITIES
The Concert Hall does not contain any scene or costume shop. The facility does have a basic washer/dryer unit.

ORCHESTRA TOWERS
The most prominent features of the Concert Hall stage are the permanent orchestra towers. These towers, four on each side of the stage, ARE FIXED, STATIONARY, AND IMMOBILE. All access to the stage from the wings is through doors in the lower section in each tower. Doors in the two upper sections of each tower can be opened to permit stage lighting. The entrance doors on the downstage towers on each side are 5’-11” wide and the remaining towers have doors 5’-1” wide. All entrance doors are 7’-9” high but contain an obstruction in the form of a knee brace on each side of the opening at the top (see photo). The towers
consist of a metal square-tube frame covered with particleboard and are painted “blackberry.” They are 20'-0” high.

In their normal position the towers continue the line of the acoustical panels in the auditorium and form a forced perspective sound shell on the stage (see floor plan). The towers may be rolled off stage to provide more stage space with a subsequent loss of wing space. The distance of travel of each tower measured from the centerline of the stage to the onstage edge is listed below:

<table>
<thead>
<tr>
<th>Tower</th>

</tr>
<tr>
<td>#4(US)</td>
<td>15'-0”</td>

</tr>
</tbody>
</table>

With the #4 towers in the full offstage position and the others in the normal position, it is possible to move tall scenic units onto the stage. The stage towers are unwieldy and should be preset by the house staff in advance of company arrival. **Tower moves are labor intensive.**

**PERFORMANCE BALCONIES (Vestibules)**

Located 16'-7” above the stage floor and adjacent to D.S.L and D.S.R are two triangular spaces originally designed to house organ pipes. These areas may be used for a small orchestra or choir in lieu of the pit, or for special effects with brass choirs, etc. The approximate dimensions are 36'-0” with a usable area of 470 square feet per balcony. Sightlines for a conductor in these areas may need to be augmented with closed-circuit video equipment.

**LOADING**

The loading dock, adjacent to stage left, can accommodate up to three vehicles at one time. The dock height is 4’-3”. Loading is through an 11'-0” wide overhead door and then a 90 degree turn onto the stage.

**CROSSOVER**

There is no backstage crossover. Crossing from one side of the stage to the other is accomplished by going through the basement area. The Crossover route is marked and lighted. True rear stage crossovers can only be created by rented trussing and draperies.

**REGULATIONS**

Smoking is not permitted in the facility auditorium per Nevada State regulations. The customary curtain times are 2:00 p.m. and 8:00 p.m. Pyrotechnics must be operated and approved by a licensed State of Nevada pyrotechnist.

**STAGE MANAGER**

The stage manager’s control panel is located D.S.R. It contains a video monitor, an intercom headset position, dressing room paging, lift controls, house light controls, a ten-channel dimmer board, a four-channel audio mixer/amplifier and panic buttons. Small house consoles can also be operated for this location for smaller events.

**STAGE LIGHTING SYSTEM**

**Orchestra Lights:** To provide general illumination for orchestral and recital events, the stage is equipped with a permanent downlight system. The system provides an average of 100 foot candles of illumination over the entire stage and is controlled by a dimmer operated from either the light booth or the stage manager’s panel and console.

**Dimmers:** The dimmer system was manufactured by ETC, Inc. and consists of 120 sensor dimmers @ 2.4 KW (#P-73) and 4 @ 6KW (#R-71). Lighting load circuits are hard-wired to the dimmers and patching is by electronic means of a DMX System which assigns the dimmers to the low-voltage control-channels.

**DMX512:** Connections are located offstage right and in the lighting booth.

**Control Board:** The computer board is an ETC Expression 3 console with 800 channels.

**Instrument Inventory:**

COMPANY SWITCH
The company switch is located D.S.L. Available power is 3-phase, 4-wire, 600 amps/phase, 120/208v, 60 Hz. Connection is with camlocks. Cold water pipe is available for grounding.

FOLLOW SPOTLIGHTS
The building is equipped with two Lycian 1290 XLT xenon followspots which are located in booths at the rear of the balcony. The throw is 120’ to the front edge of the stage.

DRAPE
The facility’s drape inventory is limited to the three items listed below. There are no legs, borders, or panels.

Grand Drape: Located 23’-9” from the upstage wall. With the grand drape closed and the orchestra lift at stage level, the forestage area is 16’-6” deep at the centerline. With the orchestra lift in the lowered pit position, the apron area in front of the grand drape is 1’ deep. The grand drape is “lipstick” red velour and is 28’-0” high. It travels offstage through a slot between orchestra towers #1 and #2. It is motorized and operates at an even and moderate pace.

Rear Traveller: Located 3” from the upstage wall. The rear traveller is black velour and is 30’-0” high. It travels offstage through a slot between orchestra tower #4 and the upstage wall. It is not motorized and operates slowly.

Cyclorama: The flat cyclorama is made of bleached muslin and can be located between the rear traveller and the upstage wall. It is 27’-6” high x 44’-0” wide and ties to a hand winch-operated pipe.

COMMUNICATION SYSTEMS

Audio Monitor System: originates sound from the stage and distributes it to the dressing rooms, green room, light booth and sound booth.

Paging System: allows the stage manager to page the dressing rooms, green room and control booths.

Headset Cue System: provides party-line communication between stage manager, light booth, sound booth, spot booth and orchestra pit. There are additional positions located D.S.L., U.S.C., on the performance balconies and under auditorium seat J-26. A Telex headset system is installed.

House Intercom: provides party line communication with signaling between stage manager, house manager (lobby), rear of main floor and rear of balcony.

SOUND CONTROL SYSTEM

Control Board: The sound control board is located in the sound booth at the rear of the balcony. The area is not glassed and is open to the auditorium. The control board is a Mackie CR1604 16 Channel Mixing Console and a Midas Venice 160 with 16 channels, 4 subchannels, 2 auxiliary channels and 2 monitor outputs.

Tape Recorders: The sound booth houses three tape recorders: Ampex AG440C, 1/2 track stereo, 7 1/2 and 15 ips; TEAC A-334OS, 1/4 track quad, 33-3/4 and 7 1/2 ips; and TASCAM 112 MKII Cassette.

CD Deck: DENON CD-401

Amplifiers: In addition to the two Altec 1590C which drive the main speaker cluster, there are two 100 watt Altec 1594B and five watt Altec 1590B amplifiers available.

SECURITY STAFFING AND SEARCHES

If it is determined that a search is necessary for a given event, the promoter of that event will be required to pay for additional staffing required. Number of staff (combination of police officers, peer group security and door attendants) at each entry way to visually search the guests, to a large number of staff (combination of police officers, peer group security and door attendants) to search each guest voluntary physical pat-down or metal detection device. The exact number of staff that will be used for such purposes, as well as the costs, will be determined by the UNLV Department of Public Safety and communicated by the Directors of the Performing Arts Center. The serving of alcoholic beverages may have an impact on the level of security required for an event.

VISUAL SEARCHES

When anticipated that certain items might be brought into an event, but the volatility of the crowd is low, a visual search will be done at each entrance in the following manner:

a) Visual scan of each guest as they enter the arena.
b) The guest is asked to open his/her coat, then asked to open any purses or handbags, displaying the contents to the searcher.
c) If an inappropriate item is found, the guest will be given the opportunity to dispose of the item before entry or take it back to their vehicle. If the item is of an illegal nature, University Police will be brought in for investigation.

This type of search is designed to be done as quickly and effectively as possible so as not to slow down the ingress of the crowd. Unless a guest is asked to open their handbag or coat, the majority do not realize they have been searched. Inappropriate items will include, but not be limited to, coolers, video cameras, food, beverages, bottles, cans, sharp objects, and potential weapons.
