FBI EMPLOYMENT OPPORTUNITIES!

Posting ID: E011316

Company: FBI

Job Title: N/A

Position Type: Full-Time Employment

College Major(s): Computer Science

Company Website: www.fbijobs.gov

Work Location: U.S.

Salary: N/A

College Level(s): Graduates

OVERVIEW

The FBI has a new application system and will no longer use www.usajobs.gov - All FBI job vacancies are now posted via www.fbijobs.gov.

In addition to being able to apply for a specific job vacancy through our website, all applicants can upload their resume in up to 13 Talent Networks (plus an Intern Talent Network). Submission of your resume into a Talent Network means that you are interested in position(s) that fall within that area. Upon submission of your interest into a Talent Network(s), your resume will be reviewed and ideally, you will be invited to apply for a position(s) that matches your interest and qualifications.

To begin the process, please REGISTER within the new system as detailed under “How to Establish an Account” on our homepage (<https://www.fbijobs.gov/>).

*****PLEASE REGISTER FOR AN ACCOUNT EVEN IF YOU HAVE PREVIOUSLY SET UP A PROFILE ON THE www.FBIjobs.gov SITE*****

To view our vacancies and to express your interest within our Talent Networks, please click the blue colored “**Find Opportunities**” box in the middle of our homepage: <https://www.fbijobs.gov/>. When you are brought to the next “Careers” page, please note that only 5 Talent Networks are shown and you must use the NEXT ARROW to move forward to find additional Talent Networks:

How to Complete a Submission Guide: <https://www.fbijobs.gov/sites/default/files/Job%20Aid-How%20to%20Complete%20a%20Submission.pdf>

We are pleased to introduce the Talent Networks as shown above <https://www.fbijobs.gov/explore-careers> which includes the INTERN Talent Network. Qualified Intern applicants who wish to be considered for the Summer of 2016 Honors Internship Program (HIP), detailed at <https://www.fbijobs.gov/honors-internship-program>, must express their interest **ASAP** so that all processing can be completed prior to the start of next summer’s program.

All Talent Networks will remain open for continuous submission of interest – you no longer have to wait to apply to a specific job posting for the Special Agent , Intern and Intelligence Analyst (IA) position, among others. If you have previously applied for FBI positions, please register your account and again express your interest in the Talent Network(s) in which you may like to seek opportunities.

Our website has been updated, so I encourage you to explore all of the information offered within www.FBIjobs.gov as well as <https://www.fbijobs.gov/join-us>.

We appreciate your continued interest in opportunities with the FBI and we again encourage registration of an account, periodic review of vacancies on our www.FBIjobs.gov site, as well as expressing interest within the Talent Network(s) in which you are interested.

Applied Science, Engineering & Technology Careers

Relevant Backgrounds: Military, Engineering, Computer Science, and Physical Science

The FBI's Applied Science, Engineering, and Technology professionals use their scientific and technical knowledge and expertise to solve problems faced by the FBI and other law enforcement and intelligence agencies. Typical challenges range from how to identify a potential terrorist based on a partial fingerprint or a single strand of hair to creating new surveillance technology.

CRIMINAL JUSTICE INFORMATION SERVICES DIVISION

CJIS provides state-of-the-art identification and information services to local, state, federal, and international criminal justice communities. CJIS employees seek to reduce terrorist and criminal activities and maximize the FBI's ability to provide timely and relevant criminal justice information to FBI investigators and qualified law enforcement, criminal justice, civilian, academic, employment, and licensing agencies about individuals, stolen property, criminal organizations and activities, and related data.

CYBER DIVISION

This division addresses cyber threats in a coordinated manner, allowing the FBI to stay one step ahead of the adversaries threatening the United States. The Cyber Division's cases often have national economic and international implications. This staff also supports FBI priorities across programs, assisting with counterterrorism, counterintelligence, and criminal investigations when aggressive technological assistance is required.

LABORATORY DIVISION

The FBI Laboratory is one of the world's largest and most comprehensive crime laboratories. It provides forensic and technical services to FBI and other duly constituted law enforcement agencies to support investigative and intelligence priorities. Activities include crime scene searches, special surveillance photography, latent fingerprint examinations, forensic examinations of evidence (ranging from blood and other biological materials to explosives, drugs, and firearms), court testimony, and other scientific and technical services.

OPERATIONAL TECHNOLOGY DIVISION

This division provides the support and expertise that enhance the FBI's forensic services and capabilities related to the collection, processing and exploitation of computer, audio, and visual media. OTD's services contribute to the FBI's counterterrorism, counterintelligence, cyber, and criminal programs, the intelligence community, and the law enforcement community.

**TO LEARN MORE ABOUT THE FBI'S HIRING PROCESS, INCLUDING THE
BACKGROUND INVESTIGATION, PLEASE VISIT**

www.FBIJOBS.gov

Background Investigation Process and Disqualifiers

Every FBI employee must undergo a Background Investigation to receive a Top Secret/SCI security clearance. Once a candidate receives a Conditional Job Offer from the FBI, the background investigation will begin. The candidate will first undergo an interview, a drug test, and a polygraph test conducted by the FBI. The polygraph will test the truthfulness of all the candidate's responses on the SF-86: Questionnaire for National Security Positions. Also as part of the process, the FBI will perform extensive records checks (credit bureaus, police records, driving records, etc.) and FBI investigators will interview current and former colleagues, neighbors, friends, professors, and others.

EMPLOYMENT DISQUALIFIERS

The specific elements that automatically disqualify candidates for FBI employment include but are not limited to:

- Use of illegal drugs in violation of the FBI Employment Drug Policy
- Conviction of a felony
- Default on a student loan insured by the U.S. government
- Failure of an FBI-administered urinalysis drug test
- Failure to register with the Selective Service System (males only)

FBI'S EMPLOYMENT DRUG POLICY

If you have engaged in any of the following activities, you are not eligible for employment with the FBI:

- Use of marijuana at all within the last three years
- Use of any other illegal drug in the last 10 years
- Selling, distributing, manufacturing, or transporting any illegal drugs
- Use of prescription drug or a legally obtainable substance in a manner for which it was not intended within the last three years

All of these disqualifiers are extensively researched during the FBI Background Investigation. Please make sure you can meet FBI employment requirements *before* you apply for an FBI position.

**TO LEARN MORE ABOUT THE FBI'S HIRING PROCESS, INCLUDING THE
BACKGROUND INVESTIGATION, PLEASE VISIT**

www.FBIJOBS.gov

The FBI offers unparalleled opportunities for graduating seniors and recent graduates to embark on a career like no other. You are invited to an Information Session with FBI representatives to learn about our mission and how you can contribute to safeguarding our nation. The FBI will conduct limited on-campus interviews with qualified candidates for entry level positions/Cyber and Honors Internships/Special Agent/ and many others career opportunities.

Is the FBI for you?

Right now the FBI is recruiting and hiring recent college graduates from diverse institutions to fill full-time, entry-level positions at FBI Headquarters in Washington, D.C. and in our 56 Field Offices across the nation. If selected for an interview, you will meet with an FBI recruiter in your campus career center; some students may be offered conditional job offers for full-time permanent positions.

Candidates with a wide range of degrees qualify for most entry-level positions. However, there is high demand specifically for candidates with degrees in computer science, information technology, accounting/finance, business administration, and engineering.

You must then register at www.FBIjobs.gov, entering your school's unique code and selecting the talent network that best represents your career goals.

Please bring your identification, resume and unofficial transcript to the interview. You MUST have registered at WWW.FBIjobs.gov to interview.

Qualifications

All candidates must meet these minimum qualifications:

- Be a U.S. citizen
- Be enrolled in or graduated from an accredited college/university that is recognized by the U.S. Secretary of Education
- Pass all the FBI employment background investigation requirements and receive a Top Secret security clearance
- Anticipate graduating by August 2016, or have received an undergraduate degree or high level degree within the past two years (no earlier than August 2014), OR
- Be an eligible veteran who has received an undergraduate degree or higher level degree within the past six years (no earlier than August 2010)
- Interviews first come, first served

FBI Internships: A Gateway to a Bureau Career

The FBI Honors and Cyber Internship programs are ideal ways to explore an FBI career. These paid internships offer qualified undergraduate and graduate students the opportunity to work with employees in FBI offices nationwide.

What will I do?

These 10-week programs offer an unparalleled opportunity to work side-by-side with the most talented, tenacious colleagues in government service. Every day, we track down terrorists, thwart cyber intrusions, improve our business processes, and defend civil liberties. We seek undergraduate freshman (minimum 2nd semester), sophomore, junior, senior and graduate students for paid internships in Washington, DC, and 56 Field Offices across the country.

These highly competitive internships generally begin in June and end in August. After the internship, some students may be asked to continue volunteering during the school year at a field office nearest their college/university; many are offered conditional job offers upon graduation.

You must register at www.FBIjobs.gov, entering your school's unique code and selecting the Intern Talent Network.

Please bring identification, resume and unofficial transcript to the Interview. You MUST have registered at FBIjobs.gov to interview.

Qualifications

All candidates must meet these minimum qualifications::

- Be enrolled at an accredited college/university that is recognized by the U.S. Secretary of Education
- Qualify as a college freshman (minimum 2nd semester), sophomore, junior, senior, or graduate student (You must be enrolled full-time in the Fall 2016 after the summer internship to qualify)
- Hold a 3.0 GPA or higher at the time of application and maintain that GPA throughout the program
- US citizen
- Provide copy of ID, unofficial transcript and resume at time of interview and have registered at FBIjobs.gov
- Interviews are first come, first served
