During class, office hours and by appointment	During class, office hours and by appointment	During class, office hours and by appointment	During class, office hours and by appointment	During class, office hours and by appointment	During class, office hours and by appointment
Is there a distance education fee?	No	No	Yes*	Yes*	Yes*	Yes

**Asynchronous remote, web based and hybrid courses typically contain more online content than on-campus and synchronous remote courses. As a result, UNLV has to pay more to have enough storage space for these materials. These courses also require additional technology applications and integrations that cost more to implement and maintain. The distance education fee offsets a fraction of these costs. The fee also provides instructors with professional development opportunities to assist them in implementing online teaching best practices.*
