

# INTEGRATE FEE

**\$3 per credit** | *All students pay*

In order to deliver a quality educational experience, it is important students have the right tools to be successful, which is why UNLV is investing in the latest technology that supports student engagement, learning, and development.

One of those resources is a one-stop shop for all student information. MyUNLV allows students to easily access their enrollment, financial aid, advising, and records information. They can also register for classes, make a payment, enroll in direct deposit, view academic progress, and request official transcripts - anytime, anywhere.

Additionally, MyUNLV is linked to dozens of other widely used campus applications to allow ease of access and secure data transfer between those applications. Examples include applications supporting campus housing, career services, advising, student conduct, RebelCard, Student Wellness Center, student elections, international scholars, and scholarship programs.

To provide efficient student information services, UNLV assesses the iNtegrate fee per credit to help fund MyUNLV and related applications. It also helps pay for support staff to ensure 24/7 secure, seamless access.
